Surface

FLAT CANOPY

1 DETACH CANOPY.

Remove the screws [A] from the fixture [B] to detach the canopy [C].

Keep the screws [A] in a safe place.

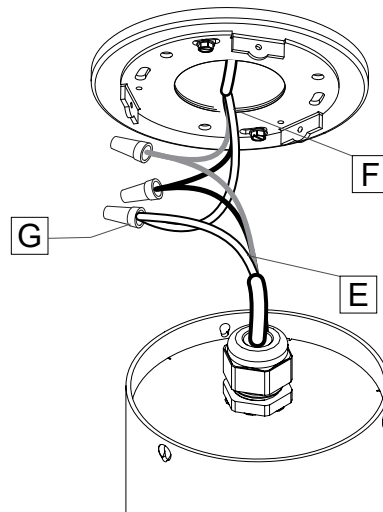

3 MAKE ELECTRICAL CONNECTIONS.

Make electrical connections between the fixture cable [E] and the main power [F] using wire nuts [G] (by others).

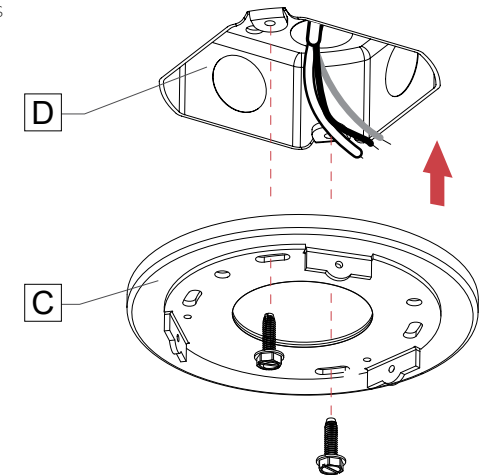

Note: Number of wires may vary.

Warning: A luminaire with more than one power supply connection means shall be connected to only one branch circuit.

2 INSTALL CANOPY.

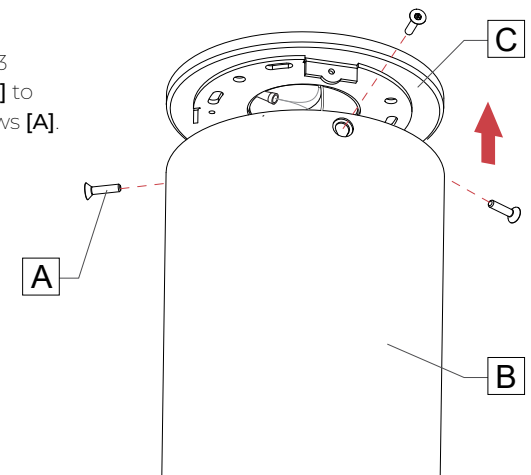

Attach the canopy [C] with screws (by others) to the j-box [D].

4 INSTALL FIXTURE.

Push all wires and connectors inside the j-box.

Raise the fixture [B], align the 3 holes and attach the fixture [B] to the canopy [C] with the 3 screws [A].

DIRECT MOUNT

1 DETACH MOUNTING PLATE.

Remove the screws [A] from the fixture [B] to detach the mounting plate [C].

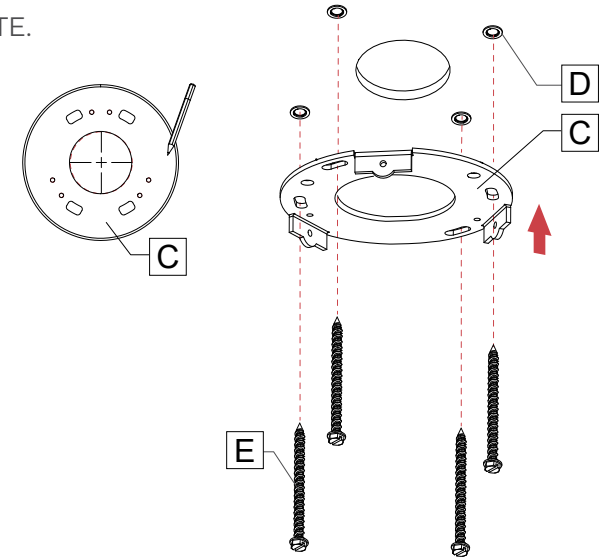

Keep the screws [A] in a safe place.

2 INSTALL MOUNTING PLATE.

Locate where the fixture will be installed. Use the mounting plate [C] as a model to mark 4 mounting points and a Ø2" hole.

Install drywall anchors [D] (by others) in the marked holes and install the mounting plate [C] with drywall screws [E] (by others).

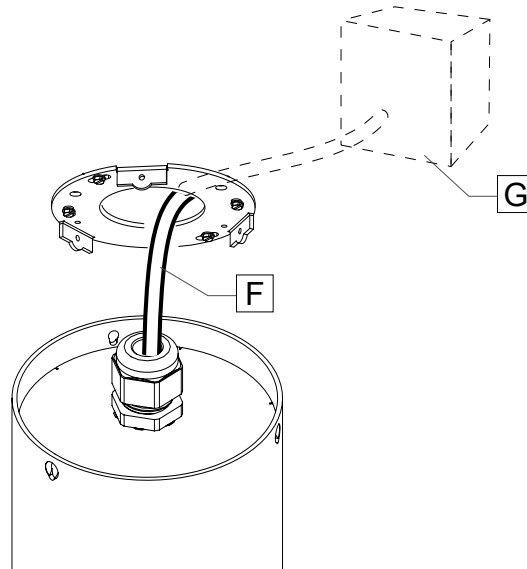

3 MAKE ELECTRICAL CONNECTIONS.

Make electrical connections between the fixture wires [F] and the main power inside an enclosure or connection box [G] (by others).

Warning: A luminaire with more than one power supply connection means shall be connected to only one branch circuit.

Note: Number of wires may vary.

4 FIX THE FIXTURE.

Attach the fixture [B] to the mounting plate [C] and secure with the screws [A].
