

# CANYON FLUORESCENT

## PENDANT STEM- INSTALLATION INSTRUCTIONS

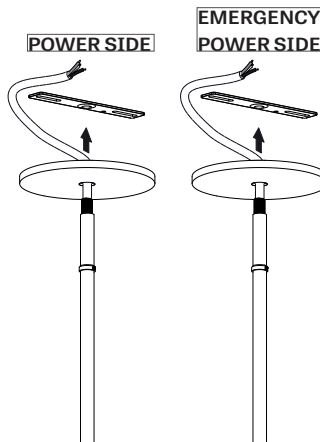

**NOTE:** Wire dimming conductors as Class 1

### 1 SINGLE FIXTURE

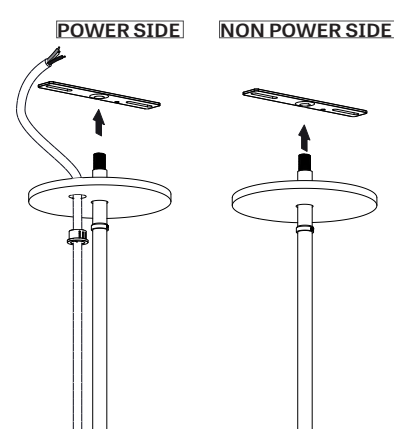

Make sure that the power to the fixture is turned off. Slide the slip ring (A) and the canopy (B) onto the stem (C) and leave some space. Screw the junction box crossbar (D) onto the stem (C).

### 2 FOR EMERGENCY CIRCUIT

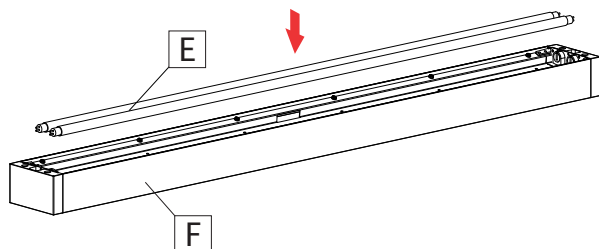

In the case where an **emergency circuit** is required, the wires to the emergency circuit will be passed through a second stem.

### 3 FOR FIXTURE IN GRID CEILING

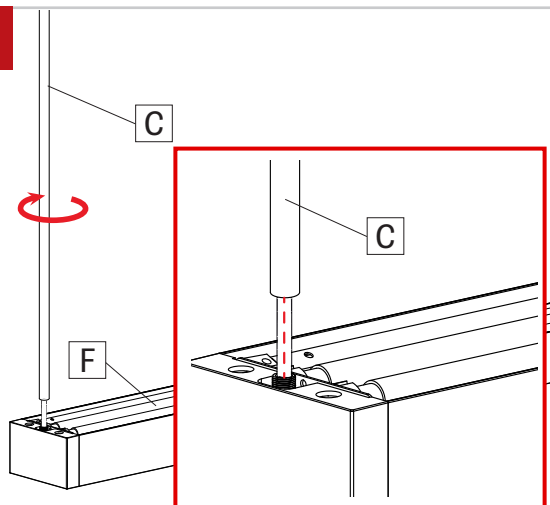

In the case where the luminaire is installed on a **grid ceiling**, the power cable will pass outside of the stem.

### 4

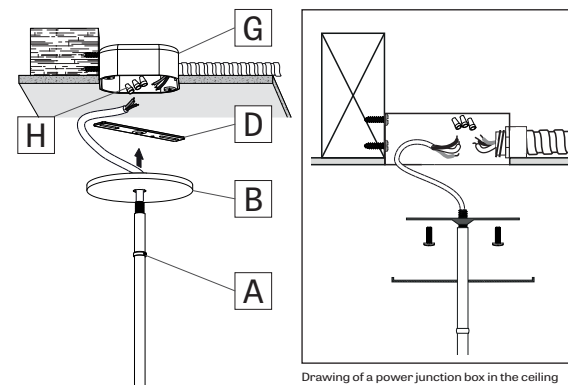

Install lamps (E) in the fixture (F). For a continuous system do not install lamps (E).

### 5

Screw the stems (C) onto the nipple at the ends of the fixture (F).

### 6 POWER SIDE

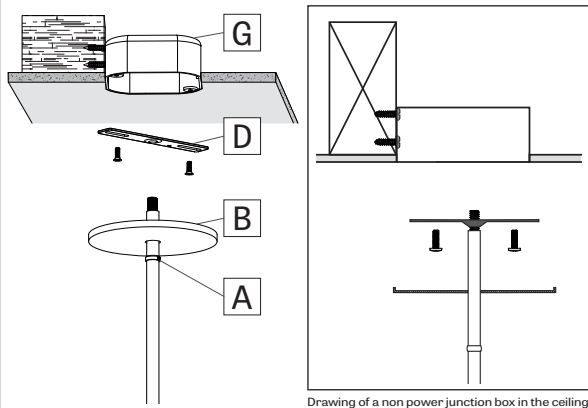

Raise the fixture and tighten the junction box crossbar (D) with screws (by others) to the junction box (G). Make wire connection with wire connectors (H). Then slide the canopy (B) and tighten the set up with the slip ring (A).

## PENDANT STEM- INSTALLATION INSTRUCTIONS

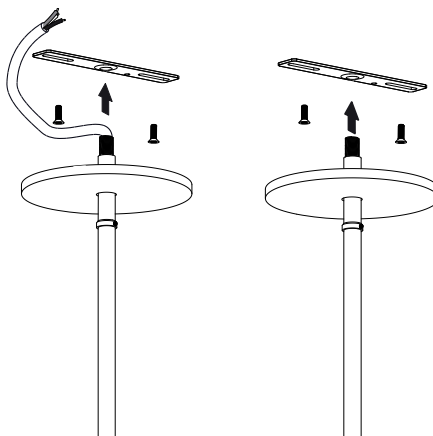

### 7 NON-POWER SIDE

Drawing of a non power junction box in the ceiling

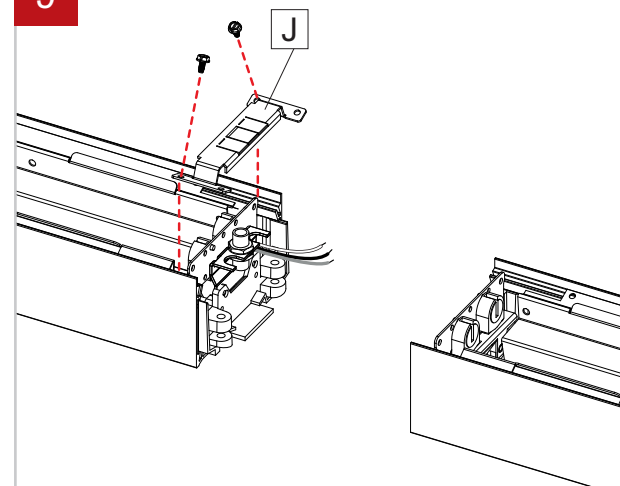

Raise the fixture and tighten the junction box crossbar (D) with screws (by others) to the junction box (G). Then slide the canopy (B) and tighten the set up with the slip ring (A).

### 8 CONTINUOUS SYSTEM

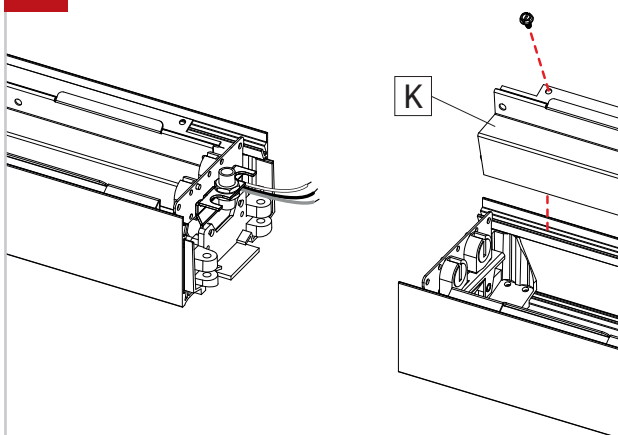

For a continuous system, repeat steps 1 to 3 for all mounting hardware.

### 9

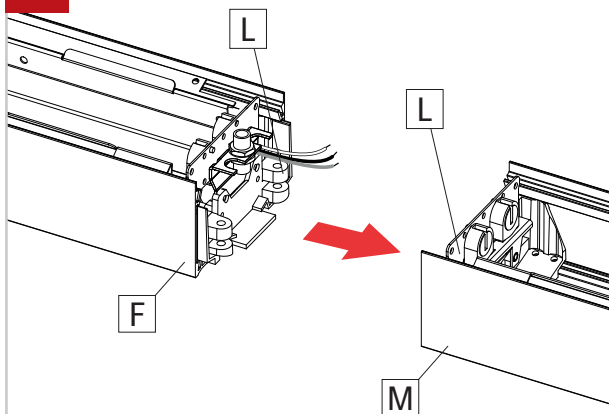

Unscrew and remove the top cap (J). Put it in a safe place.

### 10

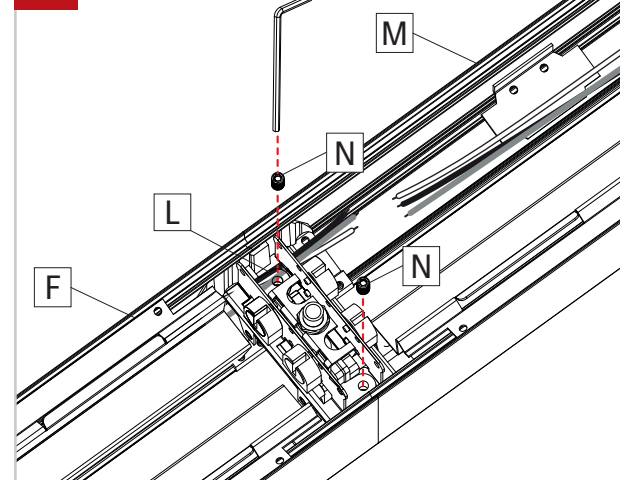

Unscrew the side reflectors (K) and remove them from the fixtures. Place the side reflectors (K) in a safe place. Repeat for all fixtures in the run.

### 11

Pass the wires from the first fixture inside the second fixture. Align the joiners (L) at the end of the first two fixtures (F) and (M) and connect them.

### 12

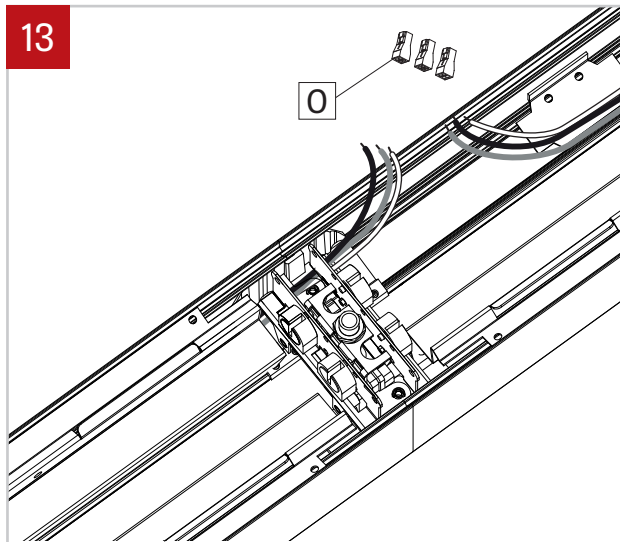

Secure the two fixtures (F) and (M) by fastening set screws (N) on the joiners (L).

# CANYON FLUORESCENT

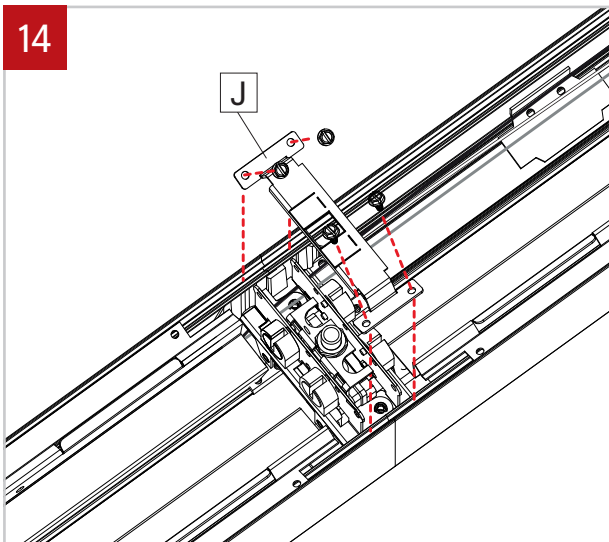

## PENDANT STEM- INSTALLATION INSTRUCTIONS

13

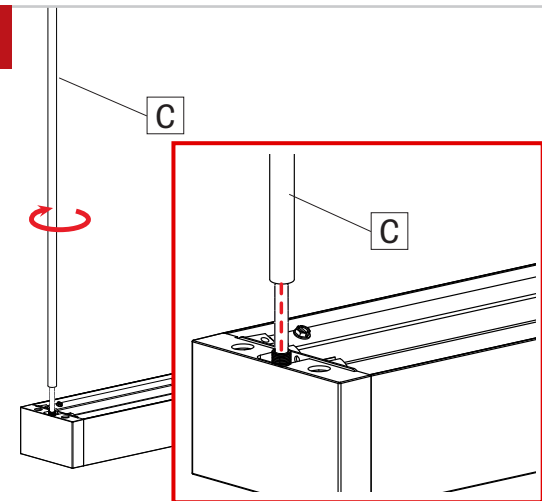

Connect wires between joining fixtures using quick connectors (O).

14

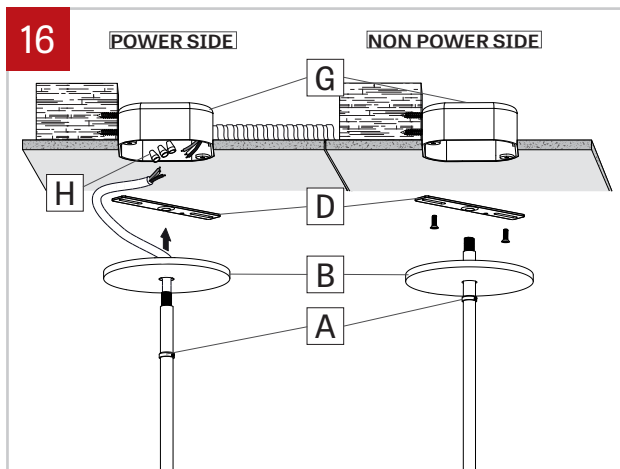

Screw top cap (J) on top of the the joiners. Repeat steps 9 to 12 for all other fixtures in the run.

15

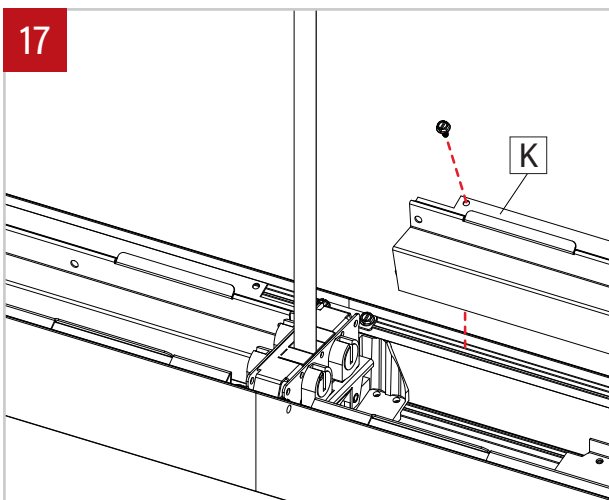

Screw the stems (C) onto the nipple at the ends of the two fixtures and on the joiner.

16

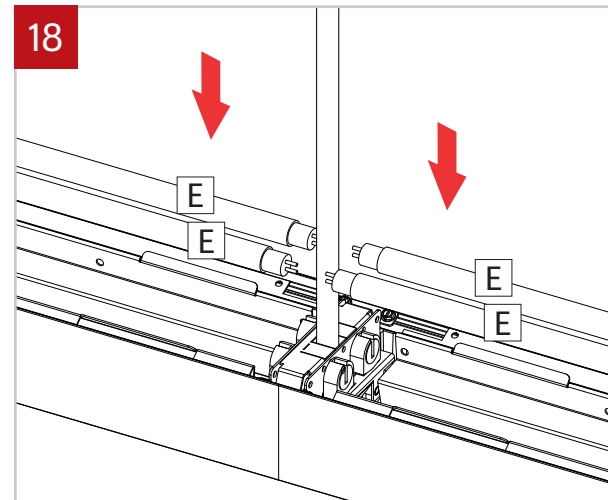

Raise the fixtures and tighten the junction box crossbars (D) with screws (by others) to the junction boxes (G). Make wire connection on the power side with wire connectors (H). Then slide the canopies (B) and tighten the sets up with the slip rings (A).

17

Reinstall the side reflector (K).

18

Install the lamps (E).
