SHAPES

PENDANT - RECESSED - SURFACE

SEALWERX SERIES

At just 1.25" tall and available in 1" and 2" widths, Curvia Slim Seal carries forward the curvilinear design language of Curvia Slim while adding sealed protection. Offered with three standard radii, 90° corners, and two endcap options, it enables the same arcs, rings, and patterns with an equally sleek profile. With IP54 and IP64 ratings, Slim Seal safeguards performance against dust and moisture, making it ideal for healthcare, hospitality, food service, and outdoor applications.

#### SEALWERX SERIES

## Pendant Mounting Code

### Standard

For a standard mounting, please refer to the information below.

#### MOUNTING

##### STS - Stem, standard

- Ø 5" for power canopy
- Ø 5" for non-power canopy
- Canopies are black for black fixtures, and white for all other fixture finishes
- Stem finish is the same color as fixture
- Stem length is 18"
- Stem is not field adjustable
- Power cord is black for black fixtures, and white for all other fixture finishes

### Custom

#### Stem

For a custom mounting, specify the options in the parentheses.

Example: STC(5NPC-36IN-W-STW-SLS)

#### MOUNTING

### PENDANT - RECESSED - SURFACE

#### SEALWERX SERIES

## Technical Specifications

### OPTIC

#### Environmentally Protected Direct Optic (EPDO)

The Environmentally Protected Optic features an innovative sealed design with our exclusive Supreme Grip™ Technology and advanced gasketing, ensuring a precise, secure fit on the extrusion while delivering superior protection against dust, water, and UV distortion.

### LIGHT SOURCE

Custom array of mid-flux LEDs are cartridge-mounted with quick-connect wiring to facilitate service and thermal management. Available in 2700K, 3000K, 3500K, 4000K, and 5000K with a minimum 80+ CRI and an option for 90+ CRI with elevated R9 value. Color consistency maintained to within 3 SDCM. All LEDs have been tested in accordance with IESNA LM-80-08 and the results have shown L80 lumen maintenance greater than 60,000 hours. Absolute product photometry is measured and presented in accordance with IESNA LM-79, unless otherwise indicated.

### ELECTRICAL

Factory-set, adjustable output current LED driver with universal (120-277 VAC) input. Dimmable from 100% to 1% with 0-10V dimming control. Rated life (90% survivorship) of 50,000 hours at 50°C max. ambient (and 70°C max. case) temperature. At maximum driver load: Efficiency > 84%, PF > 0.9, THD < 20%. Other specifiable options include Lutron Hi-Lume 1% Eco, eldoLED 1% ECOdrive 0-10V, eldoLED 0.1% SOLOdrive 0-10V, ELV, TRIAC, and DALI protocol drivers. All of our standard 0-10V drivers are NEMA 410 compliant. ELV and TRIAC dimming performance (including minimum dimming percentage) subject to dimmer selection. An optional low-temperature 10% 0-10V driver, suitable for temperatures down to -40°C/F is also available.

### PoE

Depending on the PoE manufacturer selected, Lumenwerx will install the node in factory as either integral to the luminaire or as a remote module. Factory programming of the PoE node may or may not enable the following functionalities: lumen package, DUO (tunable white), QUADRO (RGBW), emergency battery backup, and sensor integration. These must be addressed and evaluated on a case-by-case basis.

### Battery

Factory installed long life, high temperature, maintenance-free Lithium-Ion battery pack with self-test functionality, test switch and charge indicator. Minimum of 90 minutes operation, up to 1000 lumens per 4' (25°C) emergency lighting output and recharge time of 24 hours. Suited for ambient temperatures of 0°C (32°F) to 55°C (131°F).

### Generator Transfer Device (GTD)

A UL924 listed shunt relay that can bypass both line voltage (120-277V) and 0-10V dimming signal. Suited for ambient temperatures of 0°C (32°F) to 60°C (140°F).

### MOUNTING

**Pendant:** Pendant fixtures can be mounted with stem.

**Recessed:** Recessed fixtures can be mounted in ceilings with trim or mud flange options.

**Surface:** Surface fixtures can be mounted directly to hard surface ceilings, hardware supplied by others. A minimum of 6" from the vertical wall is required.

### FINISH

**Interior:** 95%, reflective matte powder coated white paint

**Exterior:** Powder-coat paint in matte white, matte black, or aluminum. Custom finishes are also available. Optional antimicrobial finish.

### CONSTRUCTION

**Housing:** Extruded aluminum, up to 90% recycled content

**Reflectors:** Aluminum

**Lens:** Polycarbonate

**Gaskets:** closed-cell silicone foam

**Stem:** Ø 1/2" threaded steel tube

### WEIGHT

**Pendant:** 0.84 lb/ft - 0.38 kg/ft

**Recessed:** 1.20 lb/ft - 0.54 kg/ft

**Surface:** 0.84 lb/ft - 0.38 kg/ft

### CERTIFICATION

**ETL:** IP54-Rated environment option is rated for dry/damp locations. IP64-Rated environment option is ETL Wet Listed. Conforms to UL Standard 1598 and certified to CAN/CSA Standard C22.2 No. 250.0. During the installation of Wet Listed fixtures, the contractor is responsible for properly sealing all mounting and electrical connection points.

### WARRANTY

Lumenwerx provides a five-year limited warranty on electrical and mechanical performance of the luminaires, including the LED boards, drivers, and auxiliary electronics. Lumenwerx will repair or replace defective luminaires or components at our discretion, provided they have been installed and operated in accordance with our specifications. Other limitations apply, please refer to the full warranty on our website.
