

Curvia

Curve your design

LUMENWERX

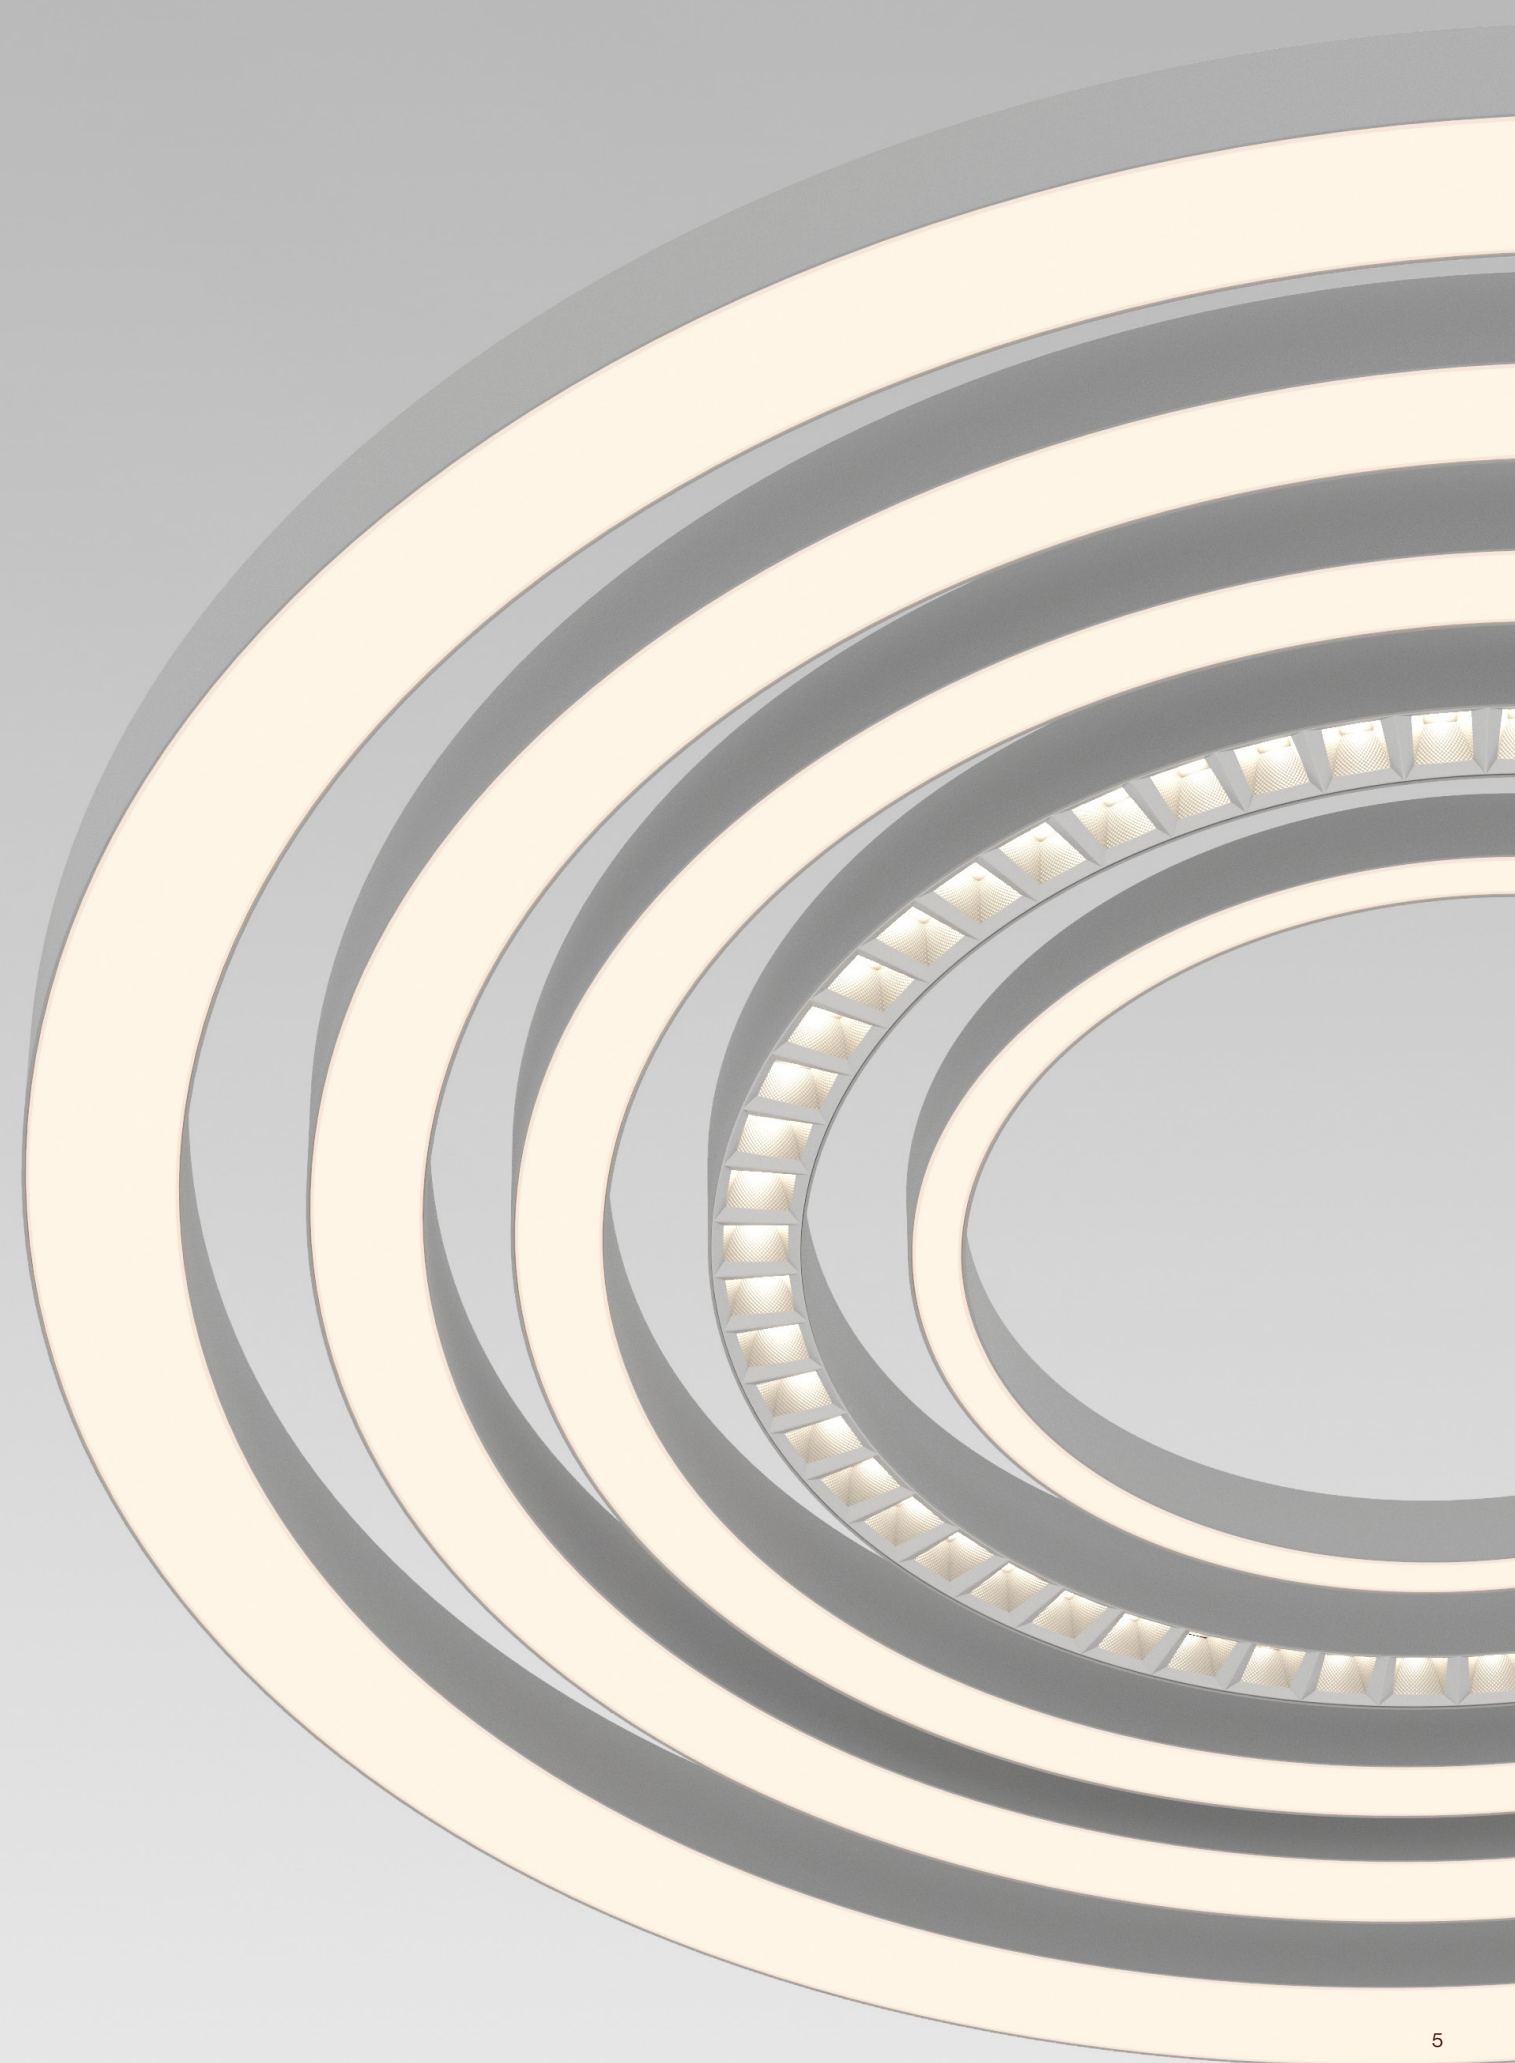

Add depth and fluidity with concentric shapes.

Showcasing **Curvia 4** with complementing Aera 4" downlights and surface Aera 4" cylinders and a run of Via 4.

Meet the Family

Meet Curvia, a collection of innovative, high-performing curved luminaires equipped with top-quality features, including ingenious snap-in lenses, seamless housing shapes, a sleek patent-pending Diamond Prism Optic™ (DPO™), sophisticated integral drivers, and much more.

- 4 widths: 1", 2", 3", 4"
- Direct or Direct/Indirect distribution
- 3 mounting types: recessed, surface, and pendant
- Diamond Prism Optic™ (DPO™) or Snap-in lens

Think Curvilinear

With Curvia, your lighting design no longer needs to be compromised by the technical limitations of rounding a corner. At long last, curved lighting applications are now realizable with the same technical prowess of a linear run, which means your design development, creative intentions, and technical requirements can all remain intact.

- 2ft diameter to infinity
- Curved corners add softness & inspire fluidity
- Endless possibilities with shapes, straight lines and endless patterns of light

Set a relaxed, playful tone with curved shapes and patterns.

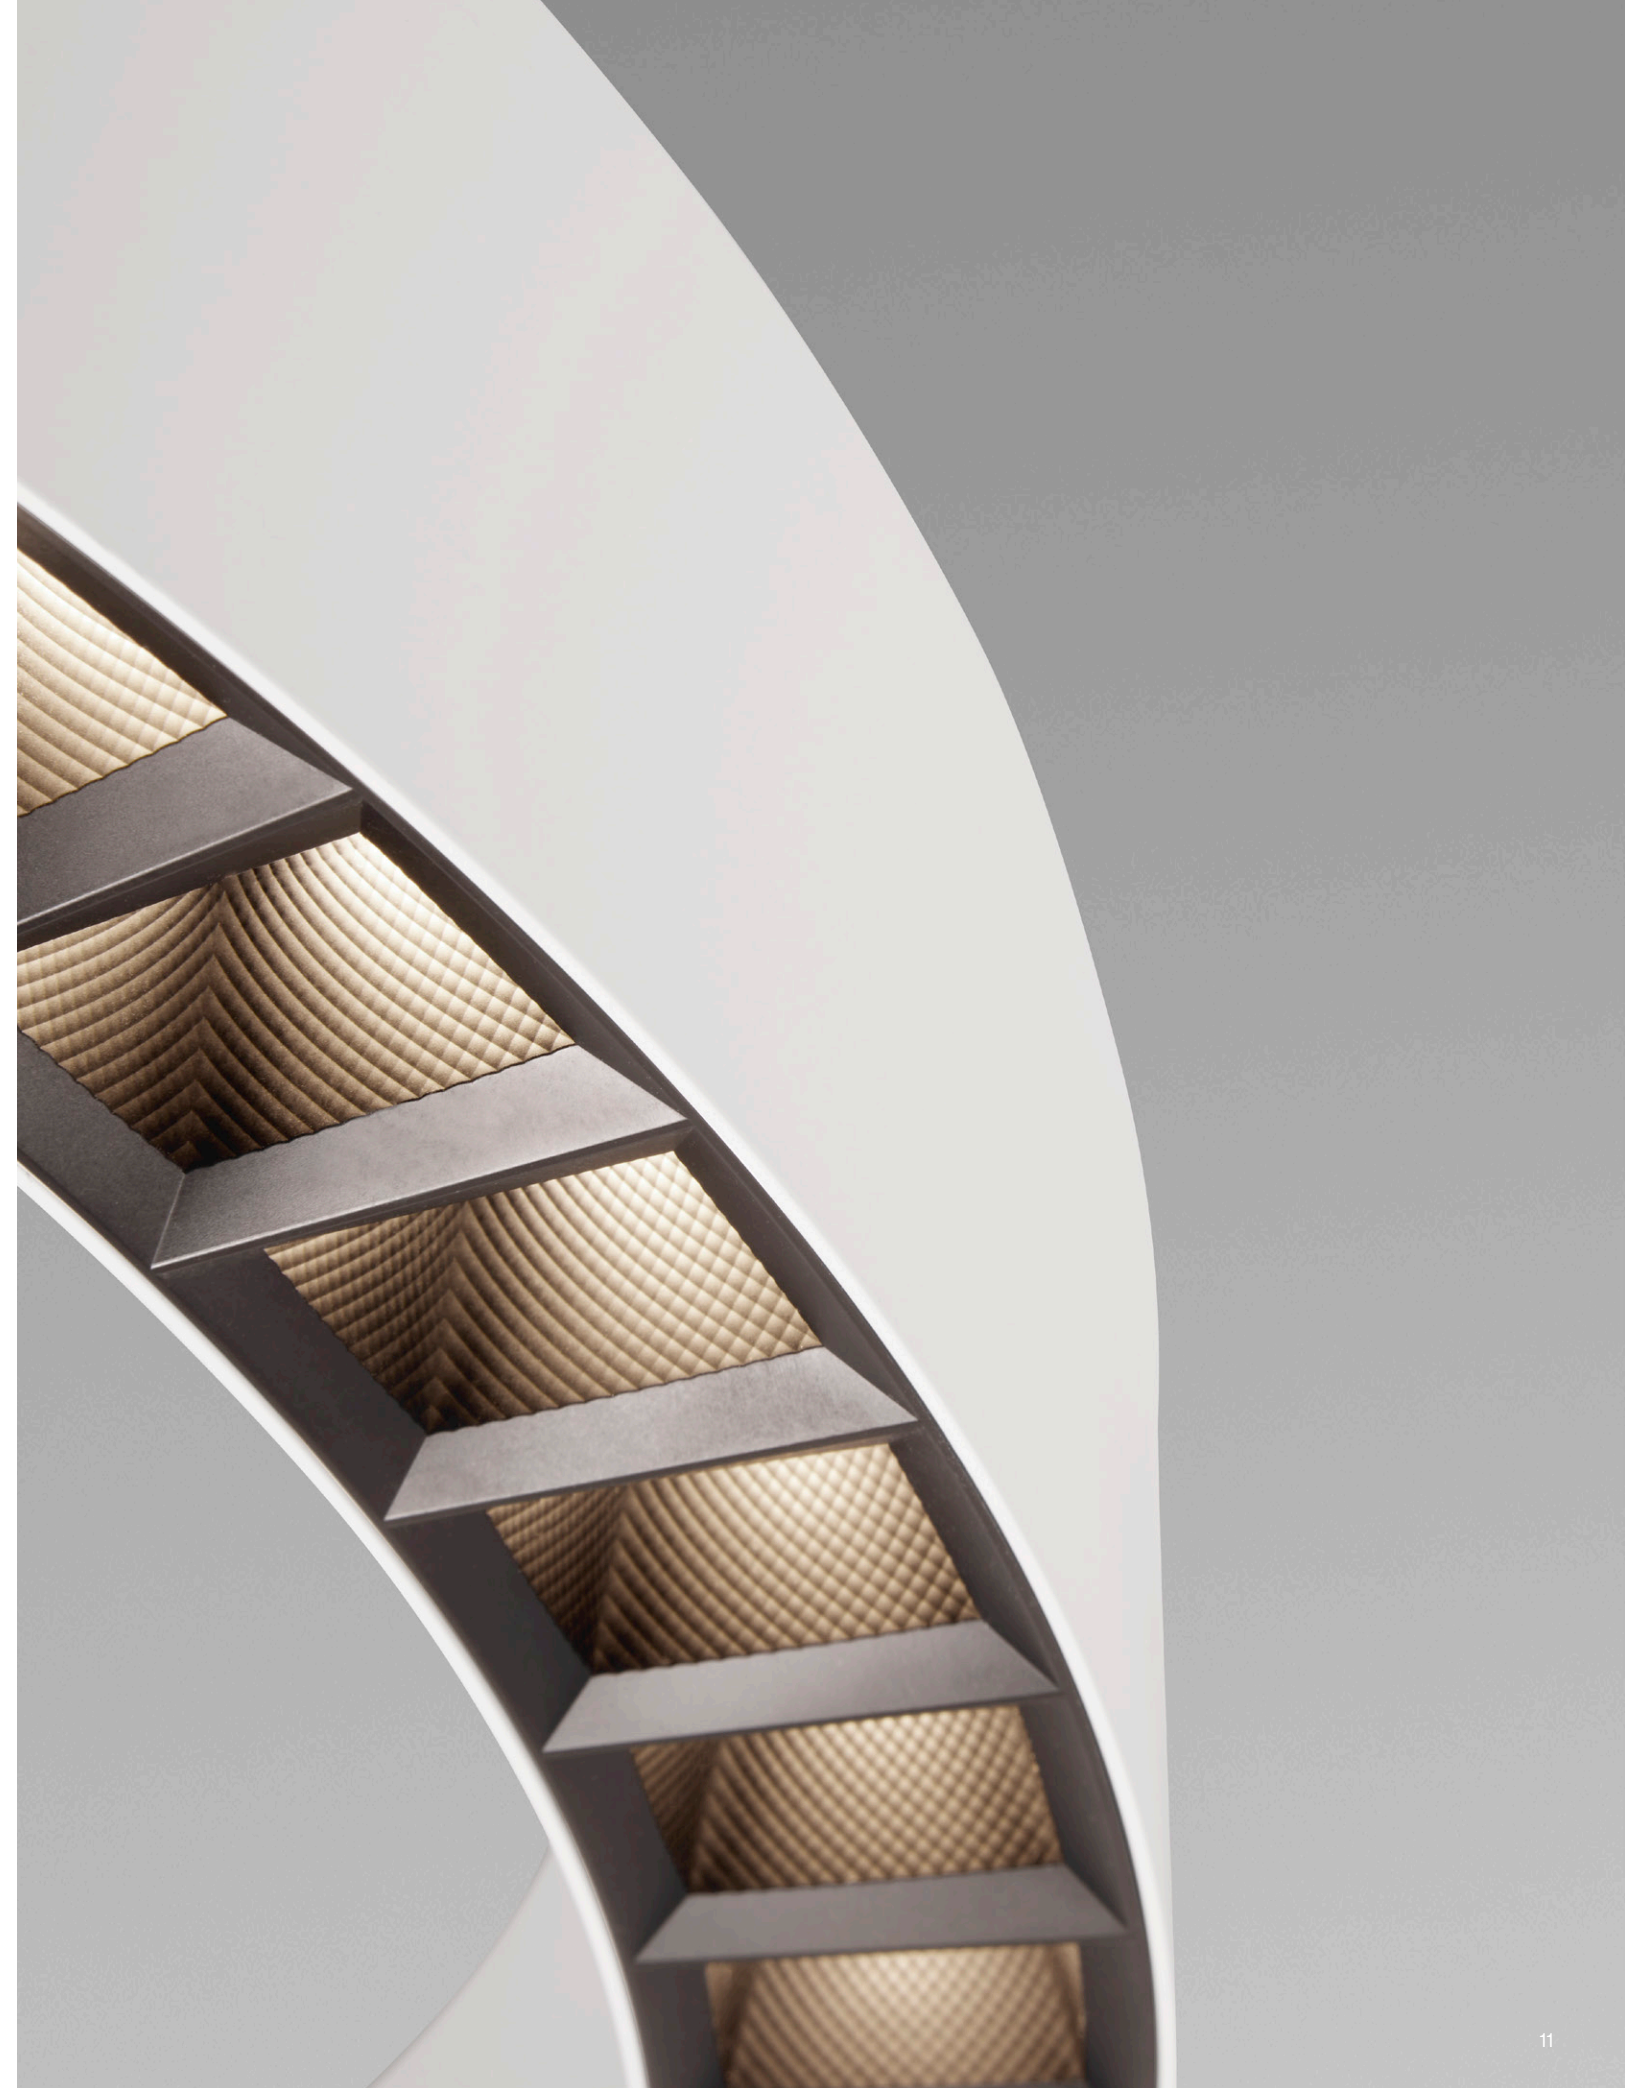

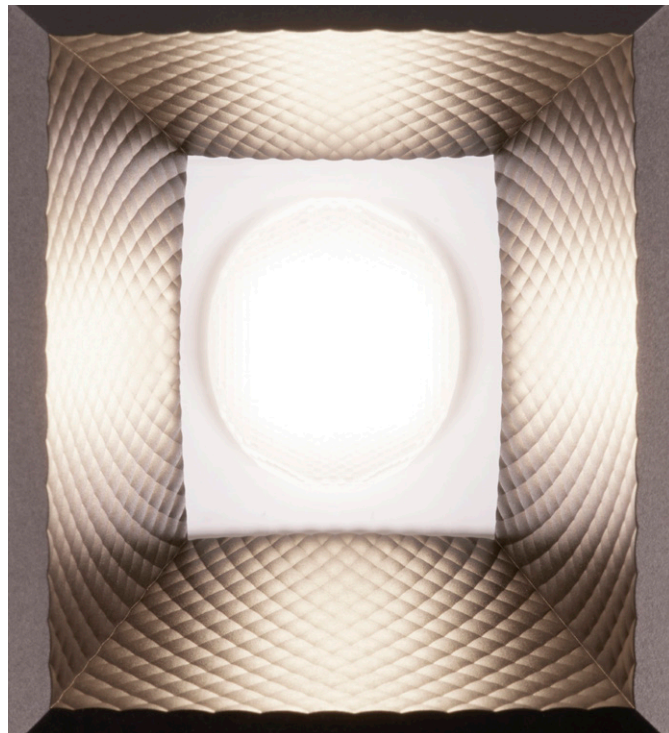

Lit with **Curvia 2** patterns, shapes, and rings.
Background is lit with Aera 3" in 35-degree beams.

Diamond Prism Optic™

Sublime Design

Exclusive to Curvia 2 Prism, our patent-pending, 3-tiered Diamond Prism Optic™ (DPO™) has been artfully crafted to minimize glare, and to refract and reflect beams with great precision. Delivering exceptional visual comfort, the DPO™ is the embodiment of advanced technology and sophisticated design.

- UGR of < 5
- Available on Curvia 2 Prism
- Diamond Prism Optic™ (DPO™)
- 4 finishes: matte silver, precision specular, matte black, matte white
- Curved or straight optics

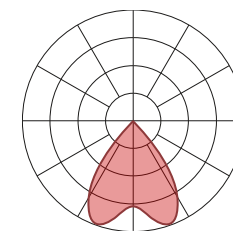

DPO™

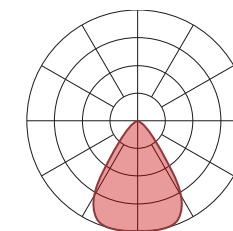

Soft Appearance,
Powerful Performance

From a distance, a Curvia fixture with DPO™ looks almost unlit as it illuminates with such soft magnificence. But behind the warm glow, Curvia 2 Prism with DPO™ pack a powerful punch with an unprecedented efficacy of up to 150 lm/W, an industry-leading UGR across all optic color options, and an efficient batwing distribution to top it all off.

Distribution

Precision Specular Optic

Matte Optic

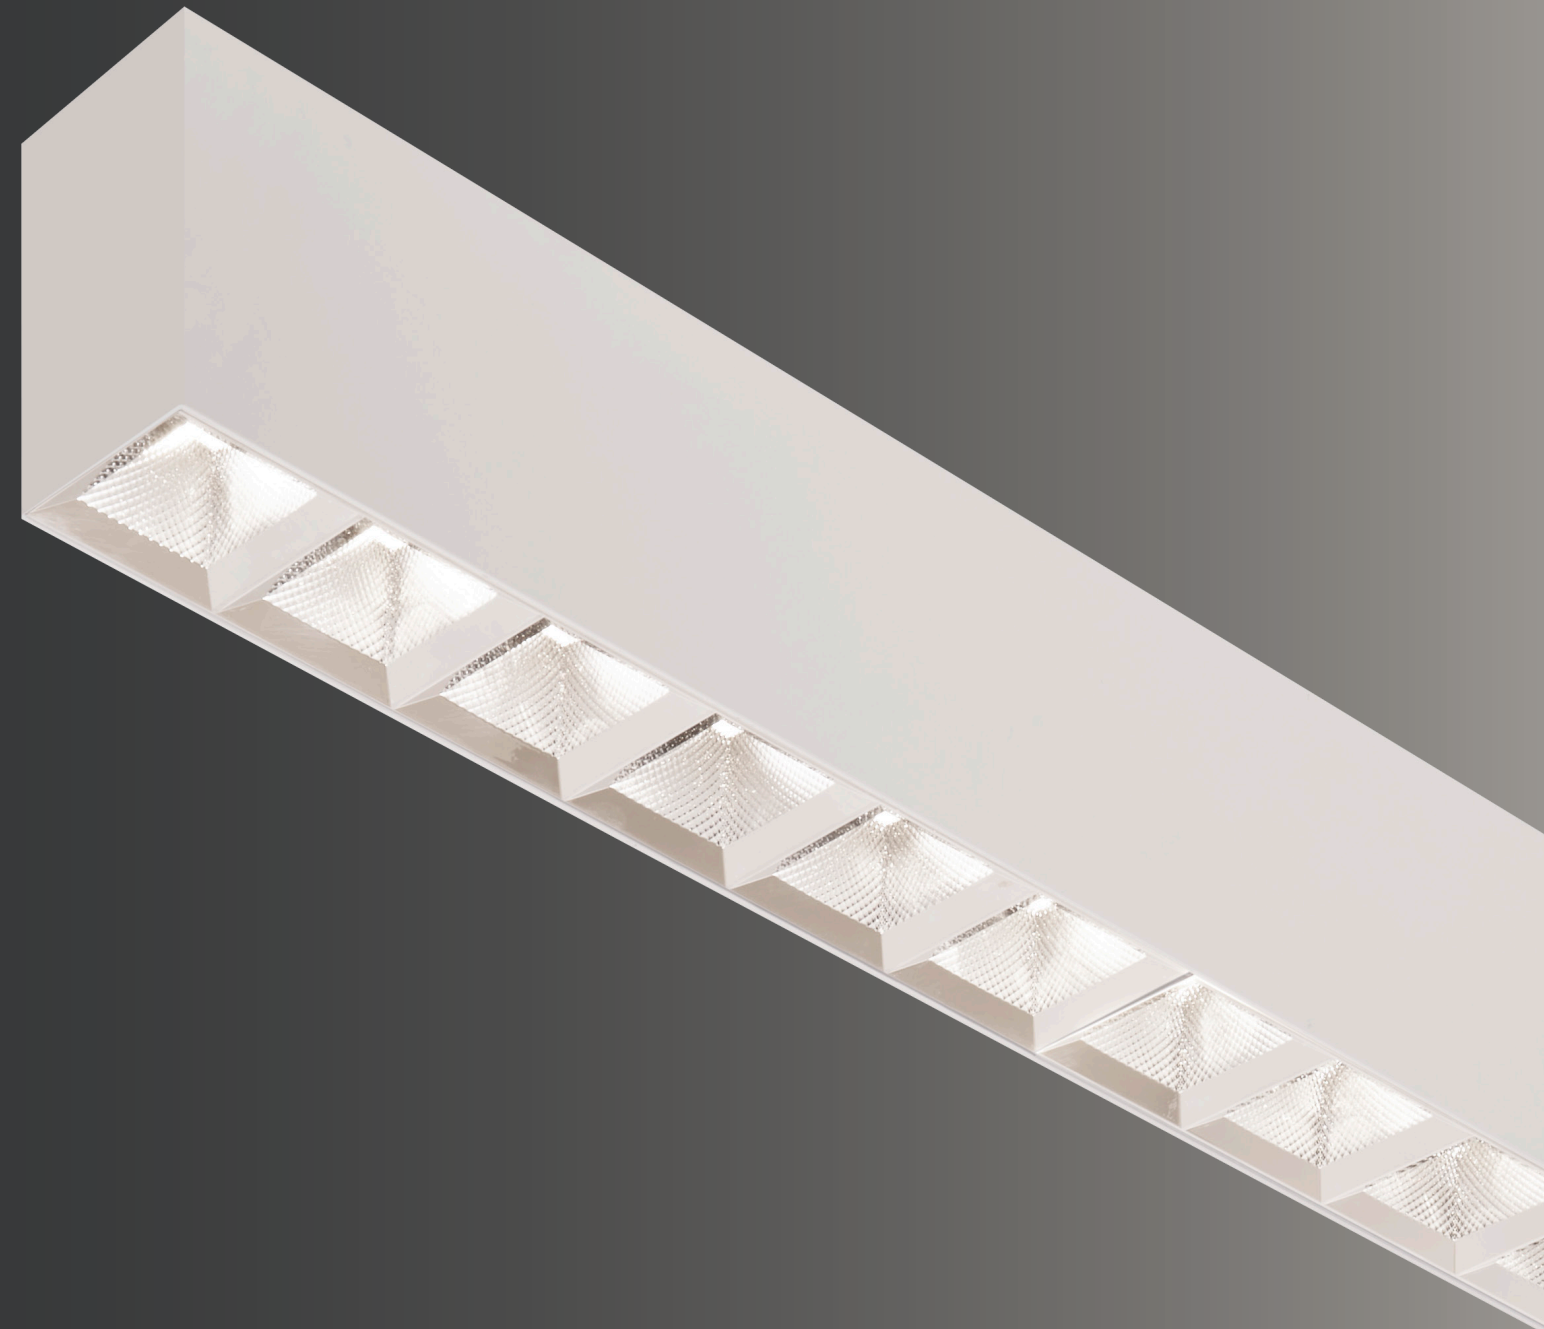

- Up to 150 lm/w in both curved and straight sections
- Patent pending DPO™ technology
- 18 or 36 inch radius

UGR table Curvia 2 Prism with DPO™ technology

	Precision Silver	Matte Silver	Matte Black	Matte White
350 lm/ft	1.2	9.7	1.2	14.9
500 lm/ft	2.4	10.9	2.4	16.1
750 lm/ft	3.8	12.3	3.8	17.8
1000 lm/ft	4.8	13.3	N/A	18.8
1200 lm/ft	5.4	13.9	N/A	19.2

Curvia 2 Prism Linear with DPO™

Our patent-pending DPO™ is also available with Curvia 2 Prism linear fixtures to allow for the creation of inspiring linear runs and layouts or of new patterns and shapes with a combination of curved and straight linear fixtures, all illuminating beautifully with the DPO™.

Curvia

Harmonize lighting and furniture plans for a balanced design.

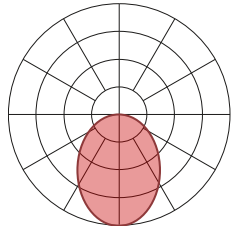

Curvia 2 Squares are featured with linear Via 2 WROs wall wash optic.

Curvia

State-of-the-Art Lensing

Curvia fixtures with HLO are enhanced with SupremeGrip™ (SG™) technology, an innovation devised in-house that negotiates Curvia's curves with finesse, securing and stabilizing the HLO while maintaining Curvia's elegant proportions. Curvia boasts impressive performance of up to 2200 lm/ft in Curvia 3 & 4; with such powerful performance, make them ideal for high ceiling application.

Distribution

- SG™ technology
- Snap-in lens
- Comfortable uniformity
- Countless shapes can be created
- Seamless curves
- Up to 2200 lm/ft

Explore more
at every turn.

Visually connect otherwise distinct spaces with rounded luminaires

Featured in this application is **Curvia 2** in HLO in a custom shape with curves and straight sections. **Curvia 2 Rectangle** and **Capsules** are featured on the side and in back.
