

FORMA CUPOLA PENDANT

DIRECT

Project: _____

Type: _____

DESCRIPTION

Timeless in appearance and flexible in function, the decorative Forma pendants embody the simple beauty of geometric design and the sophisticated power of innovative technology. The conical Caret, the truncated-cone-shaped Tote, and the hemisphere Cupola luminaires are each equipped with our Unity Pointed (UP) technology, which delivers lens brightness uniformity across all shapes and sizes within the same lumen output.

Pendant Mounting Code

Standard

For a standard mounting, please refer to the information below.

MOUNTING

PCS - Power cord

Ø5" canopy
Canopy is white
Power cord is white for all fixture finishes (except black fixture is black power cord)
Power cord length is 36"

STS - Stem

Ø5" canopy
Canopy is white
Stem finish is the same color as fixture
Stem length is 18"
Stem is not field adjustable

Custom

Power cord

For a custom mounting, specify the options in the parentheses.

Example: PCC(5PC-36IN-TMW-PCW)

MOUNTING

PCC()

	CANOPY SIZE	POWER CORD LENGTH	CANOPY FINISH	POWER CORD COLOR
PCC	5PC - Ø 5" power canopy	36IN - 36" 72IN - 72" #IN ¹ - Other lengths, specify in inches ¹ Minimum length is 18". Maximum length is 72". For longer lengths, please consult factory.	TMW - Textured matte white TMB - Textured matte black CF# - Custom finish, specify RAL#	PCW - White PCB - Black

Stem

For a custom mounting, specify the options in the parentheses.

Example: STC(5PC-18IN-TMW-STW)

MOUNTING

STC()

	CANOPY SIZE	STEM LENGTH	CANOPY FINISH	STEM COLOR
STC	5PC - Ø 5" power canopy	18IN - 18" 36IN - 36" #IN ² - Specify length in inches ² Minimum length is 7". Maximum length is 72". Stem is not field adjustable.	TMW - Textured matte white TMB - Textured matte black CF# - Custom finish, specify RAL#	STW - White STB - Black STCF# - Custom finish, specify RAL#

Technical Specifications

OPTIC

High-Efficiency Lambertian Optic (HLO)

Shielding of 0.1" thick, thermoformed diffusing acrylic with up to 70% transmission and excellent source obscuration. Vertical return edge illuminates inside of housing. Luminaire brightness is controlled by the flux-to-shielding area ratio.

LIGHT SOURCE- STATIC WHITE

Custom array of mid-flux LEDs are mounted directly to the housing for optimal thermal performance. Available in 2700K, 3000K, 3500K and 4000K with a minimum 80 CRI and an option for 90 CRI with elevated R9 value. Color consistency maintained to within 3 SDCM. LEDs operated at reduced drive current to optimize efficacy and lumen maintenance. All LEDs have been tested in accordance with IESNA LM-80-08 and the results have shown L80 lumen maintenance greater than 60,000 hours. Absolute product photometry is measured and presented in accordance with IESNA LM-79, unless otherwise indicated. Optional full spectrum LEDs can be incorporated in the fixture to increase Cyanosis Observation Index (COI) and assist in regulating circadian rhythms.

BIOS SkyBlue™ Technology is designed to provide the specific circadian stimulus to improve overall sleep quality, recovery during the night, and overall feelings of well-being. The non-visual light signals that stimulate our circadian system have peak intensity in the "sky blue" region. As the diagram below illustrates, BIOS SkyBlue technology shifts the peak LED spectral intensity (490 nm) to align better with the peak response of circadian stimulus. Also note the enhanced deep-red (near 660 nm) spectrum.

CHROMAWERX - TUNABLE WHITE

Chromawerx SOLA

Chromawerx SOLA is single-channel control that dims output while warming the color temperature in a pre-determined relationship. A simple analog control adjusts a specially populated LED array to emulate the effect of dimming a filament source.

Chromawerx DUO

Chromawerx DUO offers a two-channel control system which uses analog or digital protocols for synchronous control of both cool (6500K) to warm (2700K) LED arrays - maintaining a CRI above 90. The range of color DUO offers is useful for entraining circadian rhythms, stimulating alertness, and compensating for jet lag among other applications. The Chromawerx drivers are programmed to limit maximum light output and power usage across all color temperatures.

Chromawerx Solid colors

For dramatic coloration, Forma Cupola offers Chromawerx options for solid colors like red, green, or blue. Consult Lumenwerx for implementations of Chromawerx Duo with white and solid color LEDs, enabling muted colors or the ability to switch between white and colored light

RS - Red solid

BS - Blue solid

GS - Green solid

ELECTRICAL

Factory-set, adjustable output current LED driver with universal (120-277VAC) input. Dimmable from 100% to 1% with 0-10V dimming control. Rated life (90% survivorship) of 50,000 hours at 50°C max. ambient (and 70°C max. case) temperature. At maximum driver load: Efficiency > 84%, PF > 0.9, THD < 20%. Other specifiable options include Lutron Hi-Lume 1% Eco, DMX (RDM compatible), eldoLED 1% ECOdrive, eldoLED 0.1% SOLOdrive, and DALI protocol drivers. All of our standard 0-10V drivers are NEMA 410 compliant.

PoE

Depending on the PoE manufacturer selected, Lumenwerx will install the node in factory as either integral to the luminaire, or as a remote module. Factory programming of the PoE node may or may not enable the following functionalities: lumen package, Duo (tunable white), emergency battery backup, and sensor integration. These must be addressed and evaluated on a case-by-case basis.

FORMA CUPOLA PENDANT

DIRECT

FINISH

Interior - 95% reflective, matte white powder coating.

Exterior - Standard powder-coat paint available in textured matte white and black. Custom colors are also available in over 30 colors.

CONSTRUCTION

Housing - Spun aluminum

Canopy - Spun sheet metal

Lens - Thermoformed acrylic

WEIGHT

8" - 2.9 lbs - 1.3 kg

12" - 5.8 lbs - 2.6 kg

CERTIFICATIONS

ETL - Rated for Indoor Dry/Damp locations. Conforms to UL Standard 1598 and certified to CAN/CSA Standard C22.2 No. 250.0.

WARRANTY

Lumenwerx provides a five-year limited warranty of electrical and mechanical performance of the luminaires, including the LED boards, drivers, and auxiliary electronics. Lumenwerx will repair or replace defective luminaires or components at our discretion, provided they have been installed and operated in accordance with our specifications. Other limitations apply, please refer to the full warranty on our website.

DUO DMX SPECIFICATION

A qualified DMX integrator is required to assure proper installation and commissioning of the DMX network. **When placing the PO, please provide the contact information of your DMX integrator.**

Please answer the following questions to help us identify your DMX network requirements.

YES

Do you require a wall controller provided by Lumenwerx?

NO

DMX control system supplied by others. Lumenwerx will supply DMX-enabled fixtures with default DMX addressing. See following pages for technical DMX informations. ✓

DMX controller supplied by Lumenwerx

How many zones do you have?

A zone consists of one or more luminaires behaving identically.

1 Zone

2 Zones

How to calculate the required number of drivers:

Per fixture

1x

Driver

50W
per side

To Calculate
of drivers

1 - 4 Zones

5 or more Zones

Do you have more than
32 drivers in total?

NO

YES

Order a standard Lumenwerx wall controller.

WALL CONTROLLER

WCW - wall controller white

WCB - wall controller black

Add the control code at the end of your order code.

Please provide a fixture layout or RCP (Reflected Ceiling Plan) showing the locations of the DMX fixtures, zones and the DMX wall controller.

Refer to your DMX integrator for the installation. ✓

Subject to factory evaluation. Please contact our controls specialist at controls@lumenwerx.com. Additional costs and equipment will be required. ✓

DMX WALL CONTROLLER - TUNABLE WHITE

Default DMX Addresses:

1. WARM

2. COOL

DUO 1-4 ZONE

(1) Power:

Use this button to turn ON or OFF the fixture.

(2) Brightness/CCT:

Use the color/brightness toggle button to chose between color/brightness. When blue: brightness is selected; when yellow: color is selected.

(3) Slider:

Depending on the mode chosen in 2, the slider will allow the user to set desired color or brightness.

(4) Zone select:

Up to 4 zones can be selected, either independently or together. Once selected, the commands will be sent to the zone identified by a Blue LED.
