

IMPORTANT: Installation instructions are shown with 4ft Fortex 1 and applies to all Fortex 1 sizes

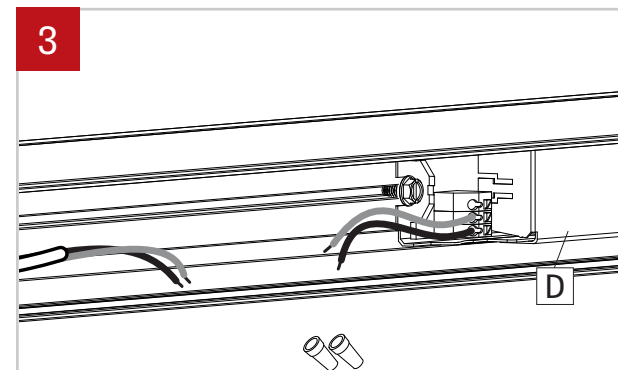

NOTE: Wire dimming conductors as Class 1

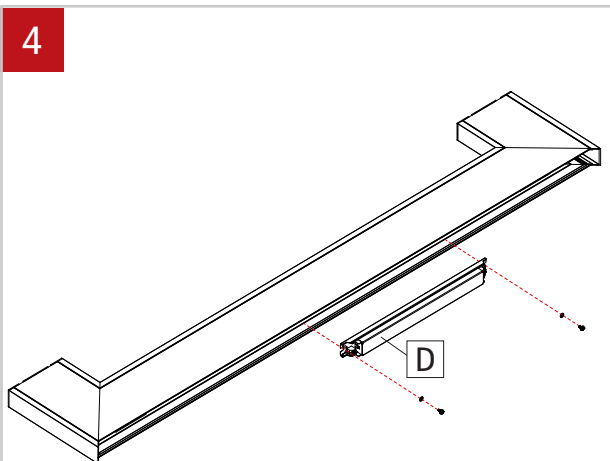

Make sure the power to the fixture is turned off. Remove the lens (A) from the fixture.

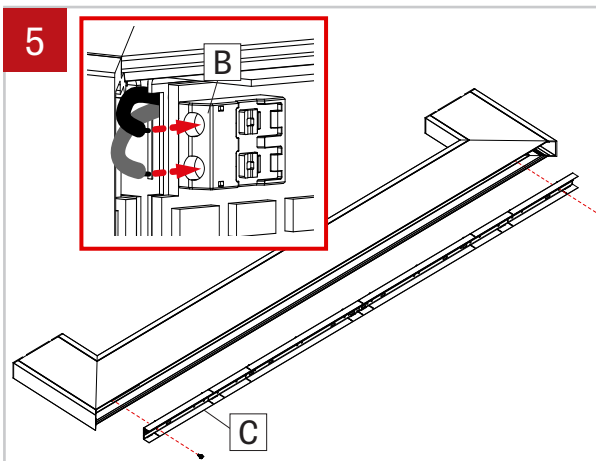

Disconnect LED molex connector (B) by taking a pointed object and pressing on the two tabs on the top. Then remove the reflector (C) from the fixture and place it in a safe place.

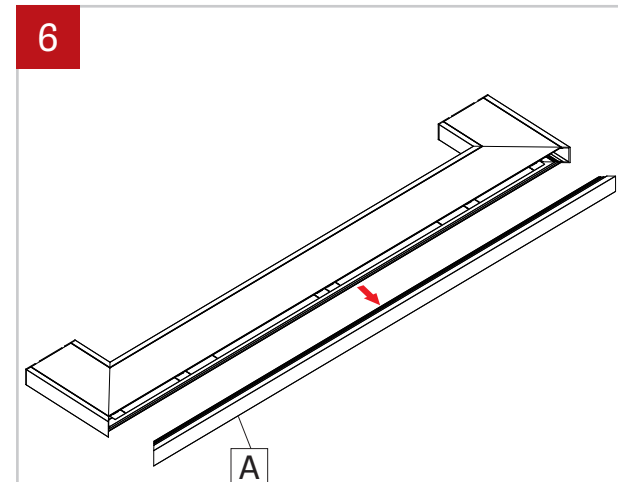

Disconnect wires from the driver (D).

Unscrew the driver (D) from the fixture. Replace the driver and make electrical connection.

Reconnect LED molex connectors (B) to the reflector (C). Reinstall the reflector (C).

Put back in place the lens (A).
