

LIVV PLUS 3.5" DOWNLIGHT

ROUND RECESSED, ADJUSTABLE, WALL WASH

Designed for advanced performance, Livv Plus delivers expanded control capabilities with greater architectural flexibility. Like our base Livv luminaires, Livv Plus offers a quick-connect system and below-ceiling access for fast, contractor-friendly installation and easy maintenance. Available in 2.5" and 3.5" apertures with fixed, adjustable, and wall wash distributions. The collection also includes Livv (The Essentials), featuring downlight essentials in a clean architectural form.

Mounting Options

ASB - Adjustable Standard Bar Hangers

- Use in commercial and residential applications.
- Suitable for grid ceiling and drywall mounting.
- Adjustable to various heights.
- Joist spacing: 14" to 24".

FMB - Flush Mount Bars

- Use in residential applications.
- Suitable for wood, metal, and drywall mounting.
- Joist spacing: 14" to 24".

ACB - Adjustable Commercial Bar Hangers

- Use in residential applications.
- Suitable for wood, metal, and drywall mounting.
- Joist spacing: 16" to 24".

Technical Specifications

OPTIC

XPoint™ Refraction Technology optics provide precise optical control in a remarkably compact form. Micro optical paths from the chip on board converge and then disperse in precise beam angles, resulting in a crisp and exacting light quality.

LIGHT SOURCE

Static white

Compact COB (Chip-On-Board) LED module, available in 1800K, 2200K, 2700K, 3000K, 3500K, 4000K, and 5000K with 95+ CRI, with an elevated R9 value. Color consistency is maintained to within 2 SDCM. All LEDs have been tested in accordance with IESNA LM-80-08 and the results have shown L80 lumen maintenance greater than 60,000 hours. Absolute product photometry is measured and presented in accordance with IESNA LM-79, unless otherwise indicated.

Chromawerx SOLA

Chromawerx SOLA is single-channel control that dims output while warming the color temperature in a pre-determined relationship. Two color temperature range options are offered: 3000K to 1800K, and 2700K to 1800K. A simple analog control adjusts a specially populated LED array to emulate the effect of dimming a filament source.

Chromawerx DUO

Chromawerx DUO offers a two-channel control system which uses analog or digital protocols for synchronous control of both cool to warm LED arrays - maintaining a CRI above 90. Two color temperature range options are offered: 6500K to 2700K, and 5000K to 2700K. The range of color DUO offers is useful for entraining circadian rhythms, stimulating alertness, and compensating for jet lag among other applications. The Chromawerx drivers are programmed to limit maximum light output and power usage across all color temperatures. When paired with DALI drivers (DDA/DDA8), color tuning follows a linear dimming curve.

ELECTRICAL

Unless otherwise specified, dimming down to 1%. At maximum driver load: efficiency>84%, PF>0.9, THD<20%.

Integral: 0-10V, ELV, TRIAC, DALI, eldoLED 0.1% SOLOdrive 0-10V, eldoLED 1% ECOdrive 0-10V

Remote: 0-10V, ELV, TRIAC, DALI, Lutron Hi-Lume 1% EcoSystem, eldoLED 0.1% SOLOdrive 0-10V, eldoLED 1% ECOdrive 0-10V, DMX, Lutron DALI-2 digital

Emergency battery options: Remotely-installed, long-life, high-temperature, maintenance-free, Bodine Lithium-Ion battery pack with self-test functionality, test switch and charge indicator. IOTA and Fulham options available upon request. Minimum of 90 minutes operation, and recharge time of 24 hours. For fixtures less than 10 W, the battery provides 6 W of emergency light output. For fixtures 10 W and over, the battery provides 10 W.

CONSTRUCTION

Housing

For new construction, 20 gauge powder coated steel. Open frame, type-IC rated. 18 gauge galvanized steel junction box with ½" trade size knockouts. Adjustable standard, flush mount, and adjustable commercial bar hangers are available as mounting options.

Ceiling thickness: 1/2" to 1 1/4"

Light element

LED module: Integral COB module. 90+ CRI and 2 SDCM. L80 > 60,000 hours.

Adjustability: Up to 30° tilt with the Recessed Adjustable model
XPoint™ Refraction Technology optic: Micro optical paths from the chip on board converge and then disperse in precise beam angles, resulting in a crisp and exacting light quality.

Thermal management: Die-cast aluminum heat sink to maximize thermal dissipation.

Baffle: Die-cast aluminum mounted with retaining spring clips

Trim style: Flanged trim, drop trim, trimless with mudplate, and trimless millwork

Finish: Matte white and matte black. Custom colors also available (provide RAL #).

IC rated: Suitable for direct contact with insulation when specified with IC, CP or AT installation type options.

WEIGHT

Remodel: 1.3 lbs - 0.6 kg

Premount plate: 2.6 lbs - 1.2 kg

Type-IC: 6.6 lbs - 3.0 kg

LIVV PLUS 3.5" DOWNLIGHT

ROUND RECESSED , ADJUSTABLE, WALL WASH

ENVIRONMENT

Ambient temperature at fixture location shall be within 0°C/32°F - 25°C/77°F, indoor dry or damp as well as outdoor damp use (canopies or marquees).

CERTIFICATIONS

ETL: Rated for indoor dry/damp locations. Conforms to UL Standard 1598 and certified to CAN/CSA Standard C22.2 No. 250.0.

IP44: IP44 rated for bathrooms, showers, outdoor canopies, and marquees when specified with the wet location (WET) option.

Chicago Plenum: City of Chicago approved (CCEA) when specified with CP installation type option.

IC rated: Suitable for direct contact with insulation when specified with IC, CP or AT installation type options.

WARRANTY

Lumenwerx provides a five-year limited warranty on electrical and mechanical performance of the luminaires, including the LED boards, drivers, and auxiliary electronics. Lumenwerx will repair or replace defective luminaires or components at our discretion, provided they have been installed and operated in accordance with our specifications. Other limitations apply, please refer to the full warranty on our website.
