NOVA-VEGA

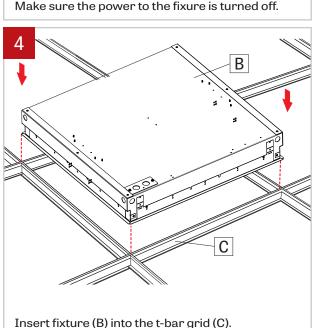

GRID CEILING - INSTALLATION INSTRUCTIONS

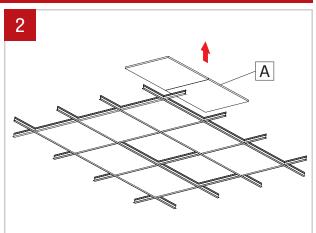

IMPORTANT: Installation instructions are shown with Nova and applies to Nova and Vega fixtures

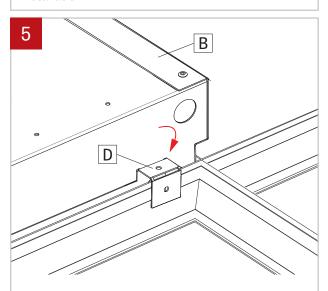

Make sure the power to the fixure is turned off.

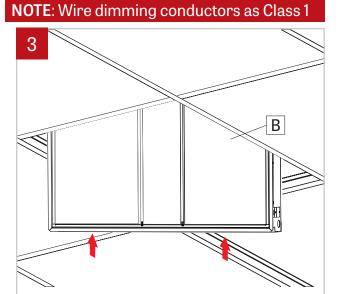

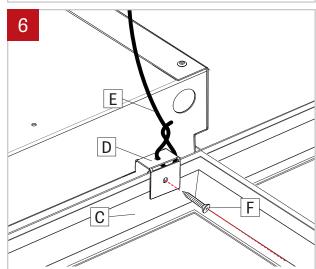

Remove ceilling tiles (A) where the fixture will be installed and adjacent tiles for easy access during installation.

Bend the tab (D) on each corner of the fixture (B) to provide support.

Insert the fixture (B) above the ceiling grid as

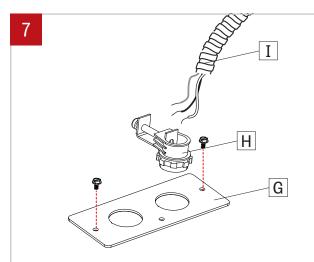

for additional safety a security wire (E) can be attached from the tabs (D) and a screw (F) can be used to fix the fixture to the T-bar grid (C).
