

IMPORTANT: Installation instructions are shown with Nova and applies to Nova and Vega fixtures

NOTE: Wire dimming conductors as Class 1

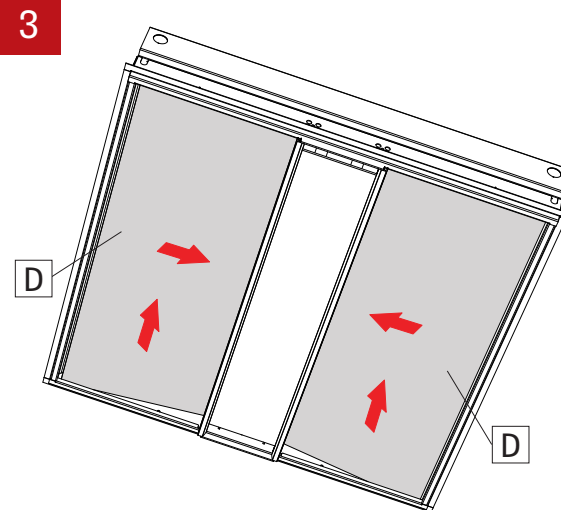

1 SINGLE FIXTURE

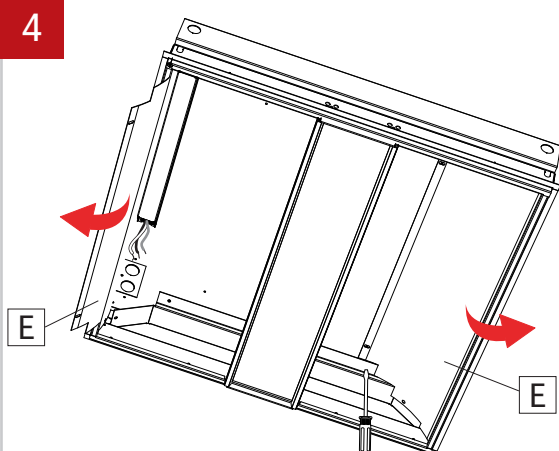

Make sure the power to the fixture is turned off.

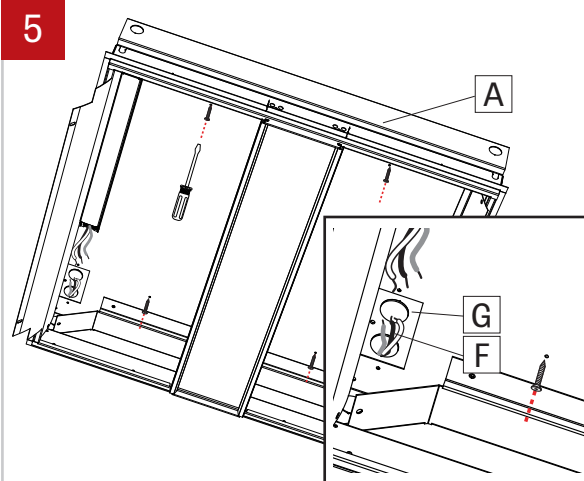

Insert the fixture (A) into the surface mounting kit (B). Place the 4 corner brackets (C) into place. Secure in place using provided screws.

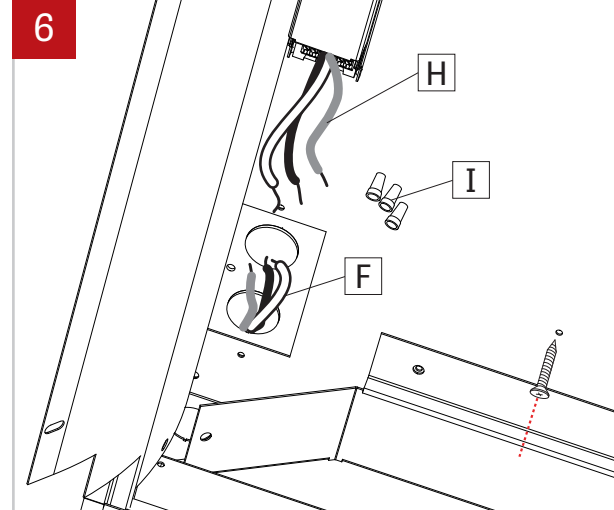

Remove the side lens (D) by sliding and pulling them.

Unscrew to open the reflectors on both sides (E).

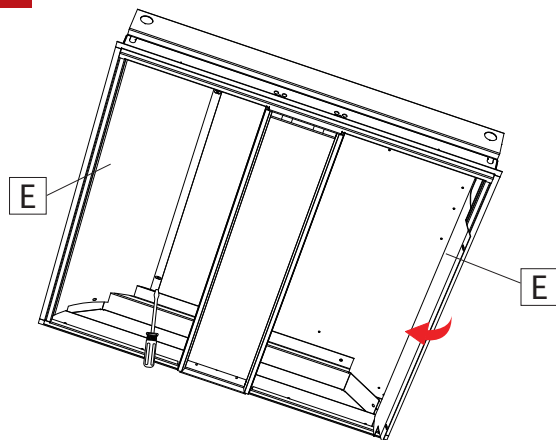

Install the fixture (A) on the ceiling and pass the ceiling power feed (F) through the power plate (G). Screw the fixture (A) to attach it to the ceiling.

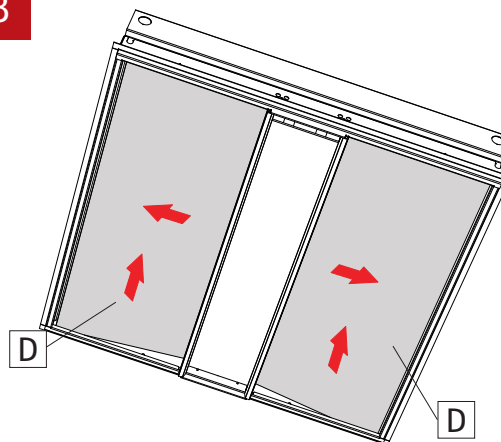

Connect the driver's power cables (H) to the ceiling's power feed (F) inside the fixture using wire nuts (I).

7

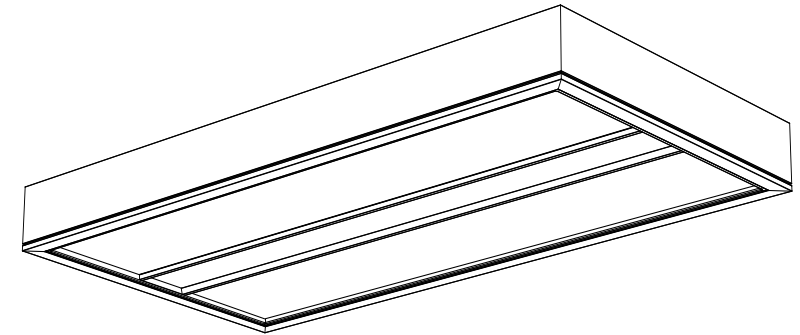

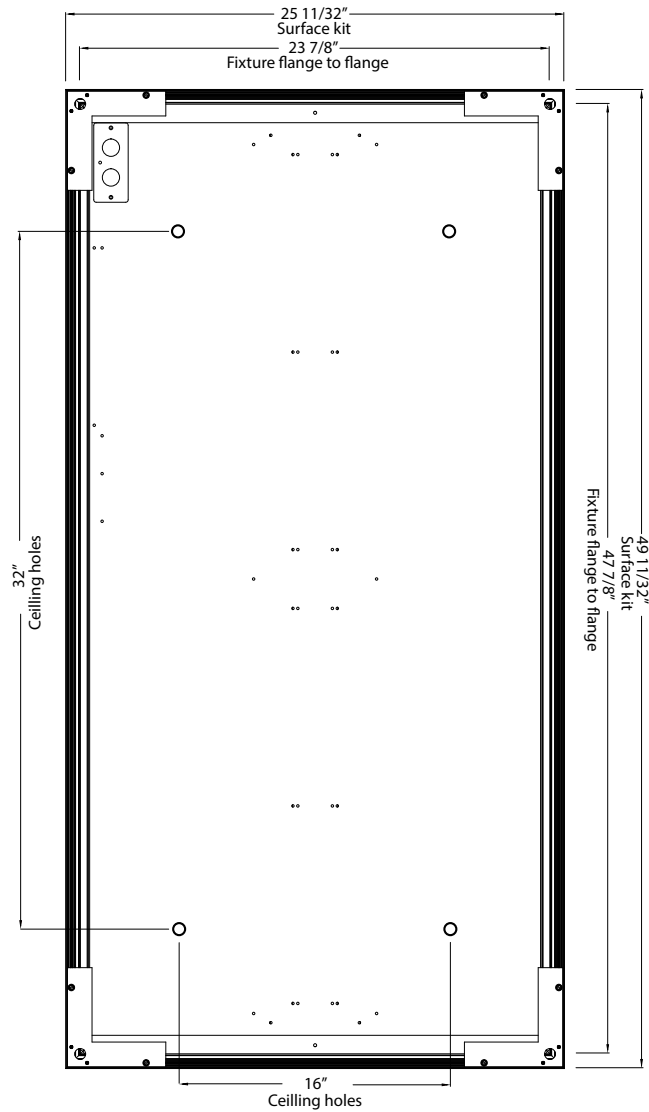

Screw the reflectors (E) back into place.

8

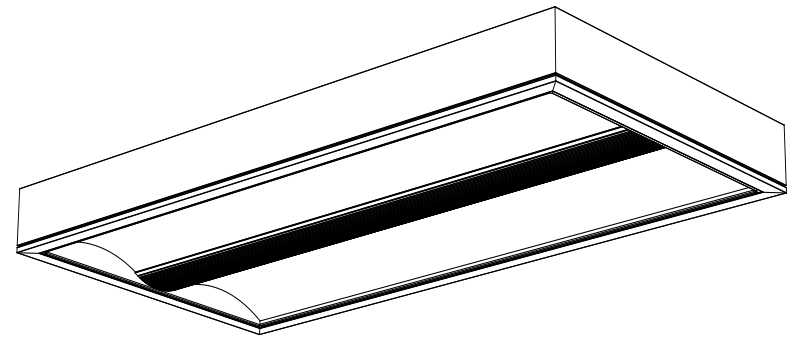

Re-install the side lens (D). Power can be safely turned on.
