POLY 1X4 LED

WALL

DESCRIPTION

Poly's geometric forms, appropriately scaled for use as discrete luminaires, offer new opportunities for creative approaches to general lighting. Poly rectangular wall can distinguish a variety of special areas. The open form is airy and features a compact 2.5" profile (drivers are remote). Poly neatly complements recessed modular luminaires. Efficacies up to 121 LPW, multiple lumen outputs and electrical options make Poly practical, as well as creative.

OPTICS

The **Uniform Luminous Optic (ULO)** drop lens of thermoformed acrylic provides three luminous faces with subtle uplight.

LIGHT SOURCE - LED

Custom array of mid-flux LED's are mounted directly to the housing for optimal thermal performance. Available in 3000K, 3500K, 4000K and 5000k with a minimum 80 CRI and an option for 90 CRI with elevated R9 value. Color consistency maintained to within 3 SDCM. LEDs operated at reduced drive current to optimize efficacy and lumen maintenance.

All LEDs have been tested in accordance with IESNA LM-80-08 and the results have shown L80 lumen maintenance greater than 60,000 hours. Absolute product photometry is measured and presented in accordance with IESNA LM-79, unless otherwise indicated.

ELECTRICAL REMOTE

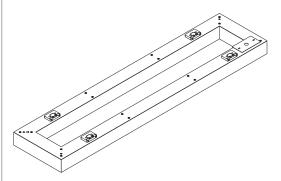

Driver features factory-set adjustable output current with universal (120-277VAC) input. Dimmable from 100% to 1% with 0-10V dimming control. Rated life (90% survivorship) of 50,000 hours at 50°C max. ambient (and 70°C max. case) temperature. At maximum driver load: Efficiency>84%, PF>0.9, THD<20%. Other specifiable options include Lutron Hi-Lume 1% (specify 2-wire or Ecosystem Dimto-Off), Lutron 5-Series (5% Ecosystem), DMX (RDM compatible) and DALI protocol drivers. All of our standard 0-10V drivers are NEMA 410 compliant.

REMOTE DRIVER

The factory-provided remote driver enclosure is accessible from below both drywall and grid ceilings.

MOUNTING OPTIONS

Fixtures may be mounted to the wall using a bracket.

FINISH

95% reflective, matte white powder coating

CONSTRUCTION

Reflector plate (LED holder) - Die formed cold rolled sheet steel 18 gauge thick, 95% reflective matte white painted

Lens - white acrylic

Wall bracket - die cast aluminum, matte white powder coating

WEIGHT

POLY 1X4 - 8.74lbs - 3.96kg

CERTIFICATIONS

ETL - Rated for Indoor Dry/Damp locations. Conforms to UL Standard 1598 and certified to CAN/CSA Standard C22.2 No. 250.0.

WARRANTY

LumenWerx provides a five-year limited warranty of electrical and mechanical performance of the luminaires, including the LED boards, drivers, and auxiliary electronics. LumenWerx will repair or replace defective luminaires or components at our discretion, provided they have been installed and operated in accordance with our specifications. Other limitations apply, please refer to the full warranty on our website.
