

NOTE: Wire dimming conductors as Class 1

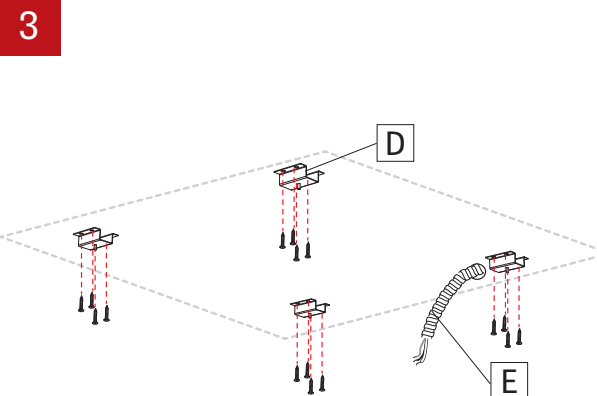

1 SINGLE FIXTURE

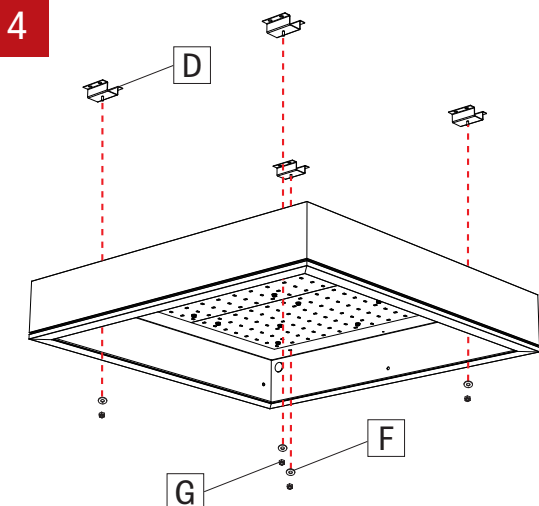

Make sure the power to the fixture is turned off.

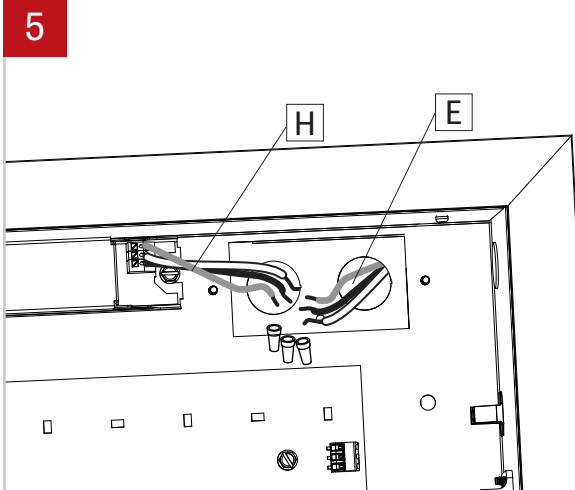

Insert the fixture (A) into the surface mounting kit (B). Place the 4 corner brackets (C) into place. Secure in place using provided screws.

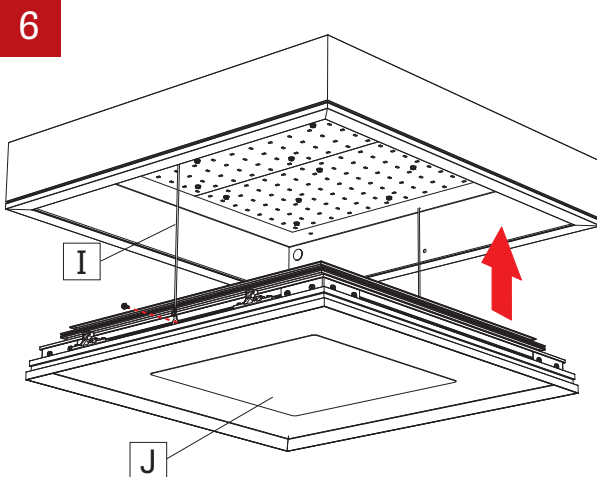

Screw brackets (D) to ceiling using diagram from step 1. Leave at least 6" of power feed (E) out of the ceiling.

Place fixture into place using the brackets (D) from step 3. Screw fixture into place using provided washers (F) and nuts (G).

Connect the driver's power cables (H) to the ceiling's power feed (E) inside the fixture.

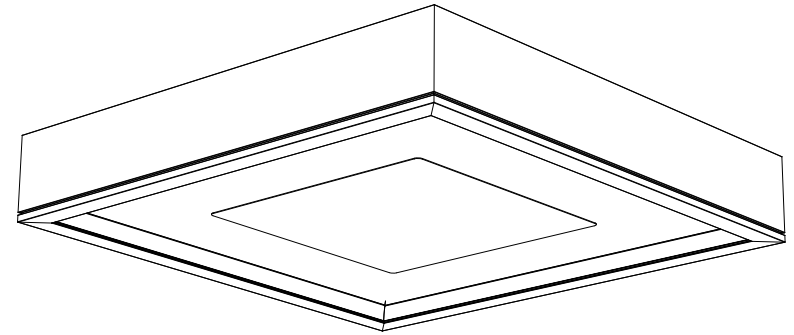

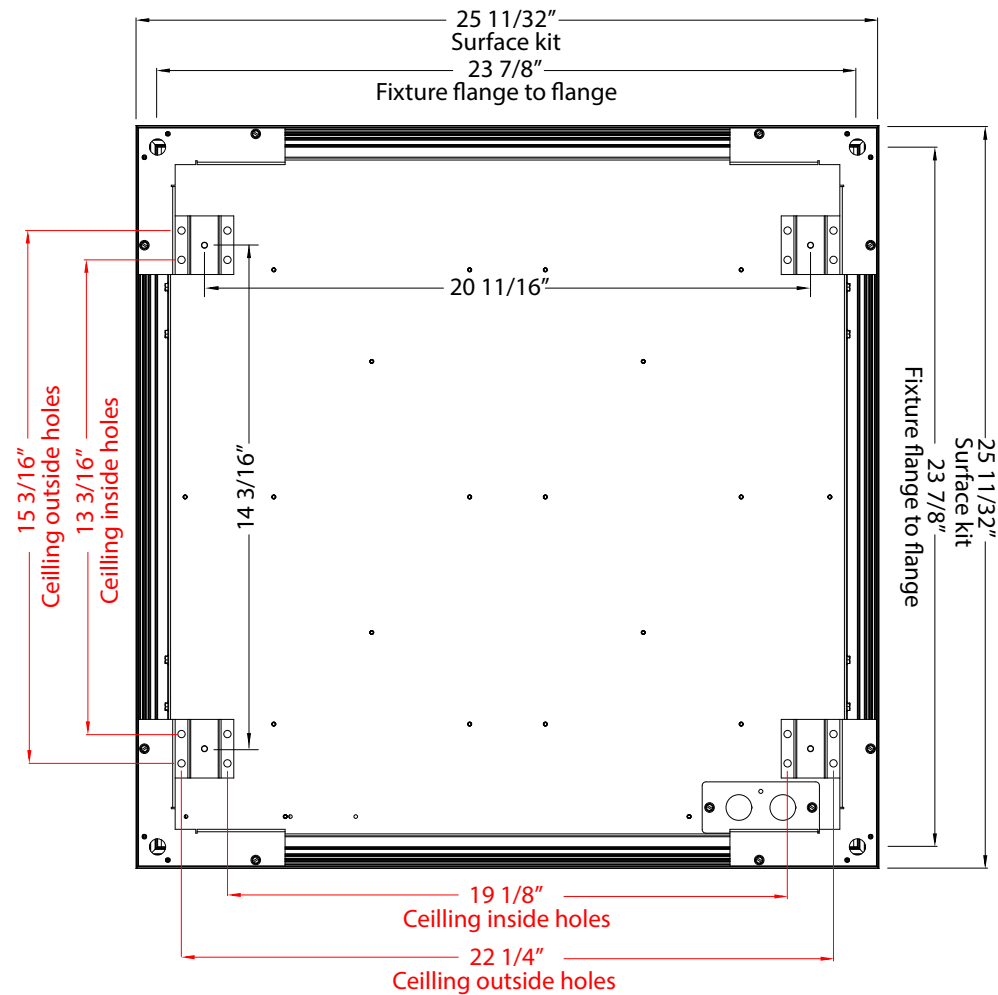

Screw safety cables (I) to the lens and push lens assembly (J) into fixture. Power can be safely turned on.
