

**IMPORTANT:** Installation inst. are shown with Shalo 3 S and apply to the Shalo 3 V and T as well

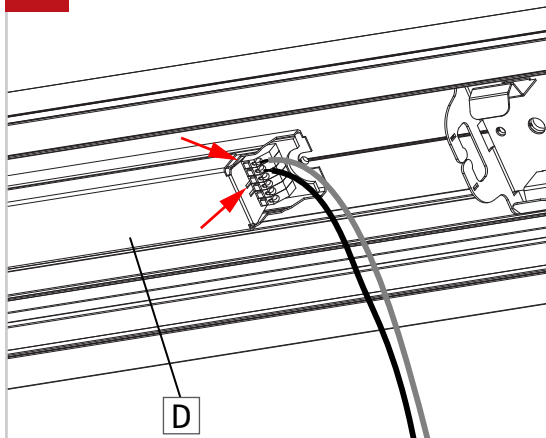

**NOTE:** Wire dimming conductors as Class 1

1

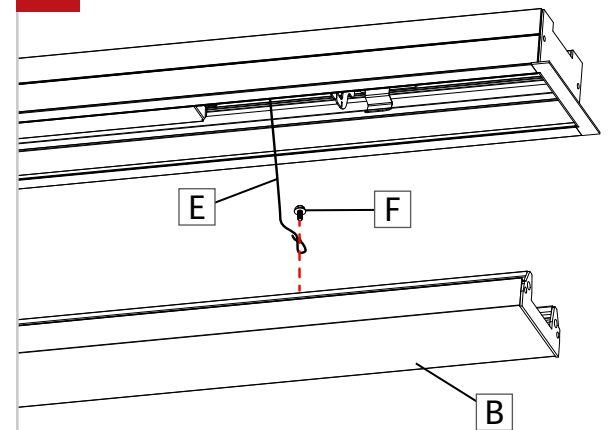

Make sure the power to the fixture (A) is turned off. Extract the cartridges (B) from the fixture (A) by pulling it. Use the provided tool (C) to pull it.

2

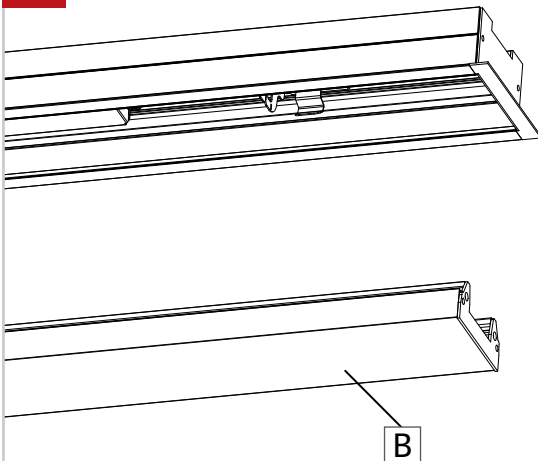

Disconnect the red (+) and blue (-) driver to led board wires from the driver (D).

3

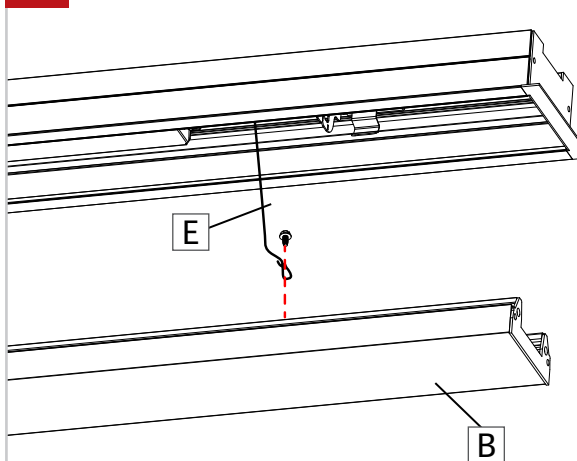

Unscrew the safety cable (E) from the cartridge (B). Keep the screws (F) in a safe place.

4

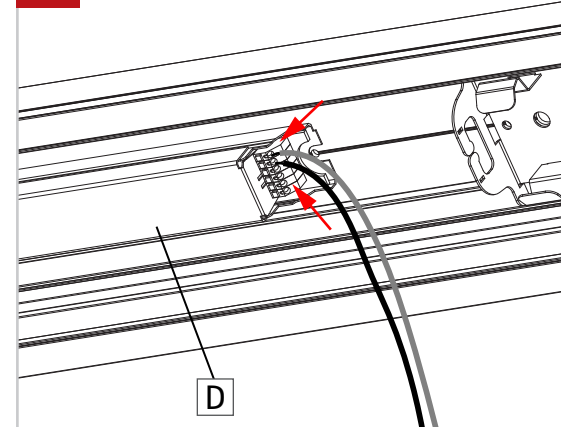

Replace the cartridge (B).

5

Reattach the safety cable (E) to the new cartridge (B).

6

Connect the red (+) and blue (-) driver to led board wires to the driver.
