LUMENWERX

**Tabs** of different sizes and colors form an appealing visual collage.

# Tab Acoustix

A light sliver of  
sound absorption

At just 0.7 inches (18 mm) in width, Tab is the slimmest family in the Lumenwerx Acoustix portfolio. Available in several lengths, heights, and colors, Tab represents a myriad of acoustic lighting possibilities, from playful visual collages featuring different sizes and colors, to more traditional acoustic treatments composed of identical luminaires mounted in parallel sequences. Tab luminaires can also soften interiors with the curves of their top corners, a detail that quietly complements their sound-dampening capabilities.

- Available in 23 colors
- Direct or Direct/Indirect
- 7 lengths, 2-8 ft
- 3 heights, 8, 12, and 16 in
- 500 lm/ft

Traditional  
acoustic lighting  
treatment with  
a dash of color.

Lime and Frost White **Tabs** shown in 8 ft lengths  
and 16 in heights, set 2 feet apart.
