

Ubik

Perimeter

LUMENWERX

Ubik Perimeter

Ubik Perimeter offers subtle, low-glare illumination in leveled, shallow, and deep recessed arrangements with parabolic louvers or HLO (High-Efficiency Lambertian Optic). Ubik Perimeter can brighten and broaden a space by illuminating perimeter walls. Use it in offices, showrooms, corridors, hospitality locations, and more.

- 2.5" aperture opening
- Three mounting positions
- Low-glare perimeter solution
- Option of parabolic louvers or HLO

Use parabolic louvers to add a subtle scalloping architectural effect emphasizing wall texture.

Ubik Perimeter

Performance

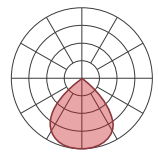

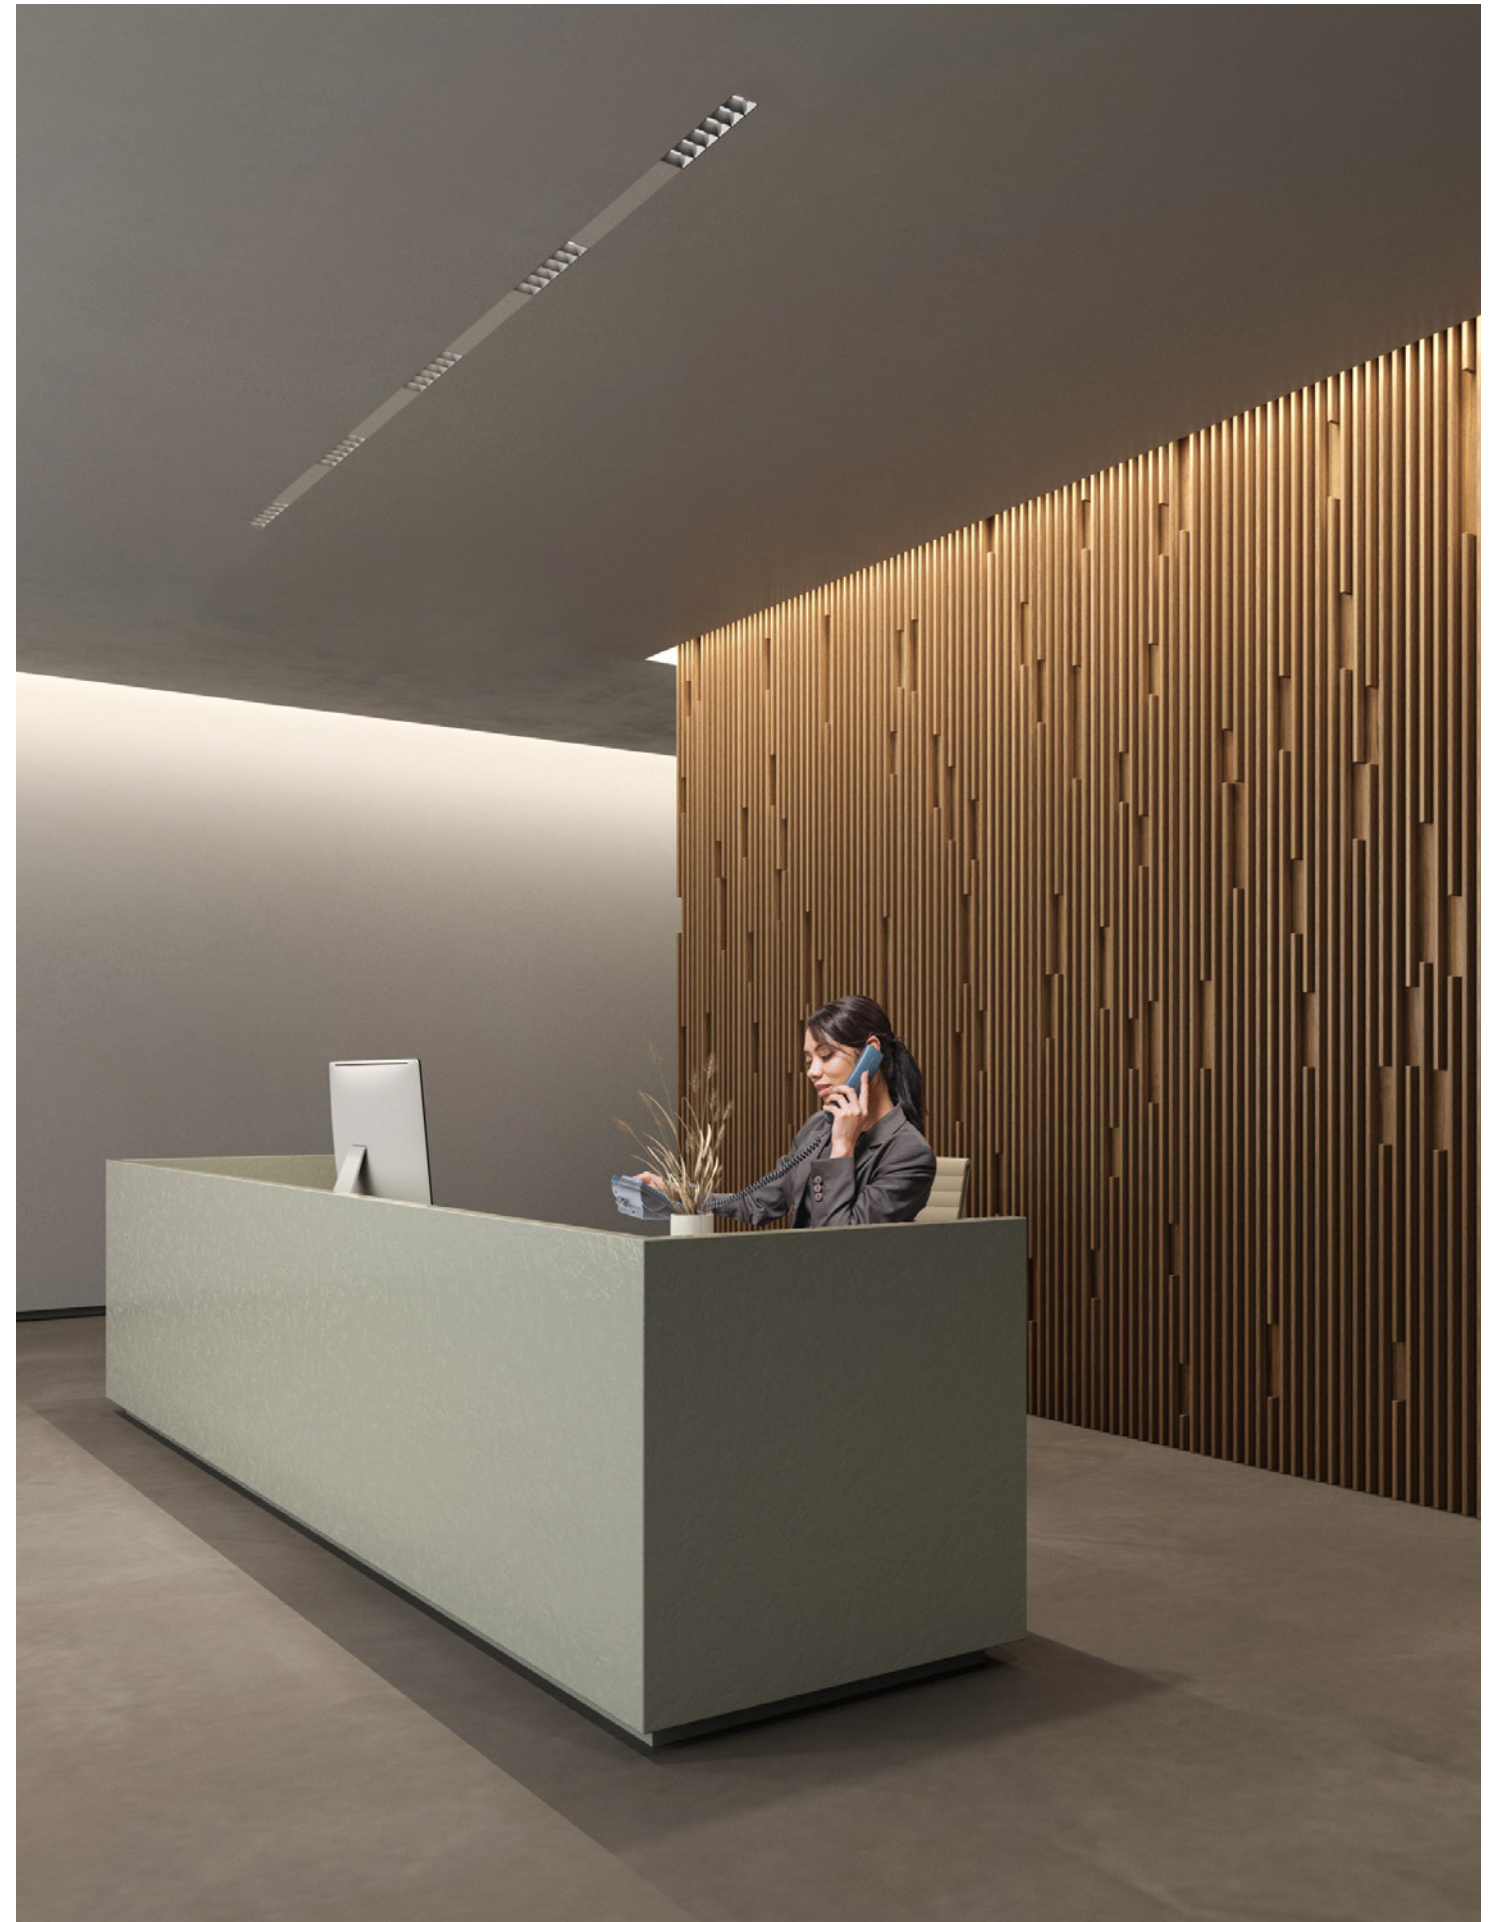

Ubik Perimeter with its small aperture (2.5") can yield big and distinct results. Level, shallow, and deep-recessed housing options provide for dramatic, softer, or subtle looks respectively. Use parabolic louvers to add a subtle scalloping architectural effect emphasizing wall texture, or benefit from our HLO (High-Efficiency Lambertian Optic) and its smooth perimeter expression.

Ubik Perimeter

Construction

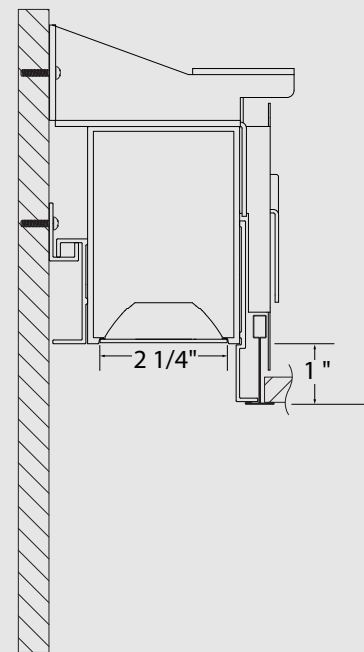

Ubik Perimeter is designed to offer lines of light that are seamless even at section transitions and corner junctions. The fixture can be mounted in a variety of ceiling systems (gypsum, t-bar, Armstrong TechZone, etc.), and for each option, the driver is positioned to be accessed from below the ceiling.

Linear

Play with lines, patterns, and corners.

Define, punctuate, enrich your spaces with Ubik. Install pendant and wall fixtures as individual luminaires or in continuous runs and patterns. Balance lit and unlit areas to create contrast and drama with a chiaroscuro effect. Enabled by our High-Efficiency Lambertian Optic (HLO), Ubik can transform dim corners into bright design features.

Combination

Variety is the spice of light.

Mix and match optics to add interest and functional diversity to spaces. Parabolic louvers are available in three matte colors—black, silver, and white—HLO, and blanks. Create patterns or combinations, the possibilities are unlimited with Ubik.
